

# Adesso Launches Affordable Smart Card Keyboards for Secure, Scalable Access Across Enterprise Verticals

*AKB-140SB and EasyTouch 130SB Combine Built-In Smart Card Authentication With Quiet or Mechanical Switches for Government, Healthcare, Education and Enterprise*

WALNUT, CA, UNITED STATES, February 20, 2026 /EINPresswire.com/ -- Adesso, a leading innovator in computer peripherals and mobile accessories, today announced the availability of two desktop keyboards with integrated smart card readers, the [Adesso AKB-140SB](#) and the [Adesso EasyTouch 130SB](#), designed to help organizations deploy secure, convenient authentication at scale without the cost or complexity of external card readers.

AKB-140SB Smart Card Reader Keyboard

The new keyboards are aimed at environments that require secure access to systems and data, including government, healthcare, education, financial services and enterprise workplaces. By integrating smart card authentication directly into the keyboard, Adesso's latest models help streamline logins, reduce hardware clutter and simplify large-scale deployments in security-conscious organizations.

Both the AKB-140SB and EasyTouch 130SB support widely adopted industry and government standards, including ISO7816, PC/SC 2.0, Microsoft Smart Card for Windows, EMV, USB-IF CCID and FIPS 201, making them suitable for regulated and compliance-driven environments.

The Adesso AKB-140SB is a low-profile, full-size keyboard with quiet membrane keys designed for everyday productivity in offices, classrooms, healthcare facilities, and government agencies. It features an integrated smart card reader and high-contrast 2X letter print keycaps to improve

readability in shared or high-use workspaces.

Pricing: The Adesso AKB-140SB is available now with a suggested retail price of \$49.99.

The Adesso EasyTouch 130SB is a mechanical keyboard designed for users who prefer a more tactile typing experience. It features red mechanical switches rated for up to 50 million keystrokes, an integrated smart card reader, a full-size 104-key layout, multimedia hotkeys, and high-contrast 2X letter-printed keycaps.

Pricing: The Adesso EasyTouch-130SB is available now with a suggested retail price of \$79.99.

“Organizations are under increasing pressure to strengthen endpoint security while managing costs and large deployments,” said Allen Ku, president of Adesso. “These new keyboards make it easier to roll out secure access at the desktop by combining smart card authentication with reliable, familiar input devices at accessible price points.”

“

As organizations balance security and cost at scale, these new keyboards simplify secure desktop access with smart card authentication in familiar, affordable devices.”

*Allen Ku, president of Adesso*

Both keyboards connect via USB and support Windows, making them straightforward to integrate into existing IT environments.

#### Availability

The Adesso AKB-140SB and EasyTouch 130SB are available now through Adesso and authorized resellers. More information is available at [www.adesso.com](http://www.adesso.com).
