Analytics Jobs Releases 'Praxis Data Science Reviews' Report: Data Science Aspirants with Transparent Insights

Analytics Jobs Unveils In-Depth "Praxis Data Science Reviews" Report

VARANASI, UTTAR PRADESH, INDIA, February 21, 2026 /EINPresswire.com/ -- <u>Analytics Jobs</u>, India's leading course reviews portal, today unveiled its highly anticipated "<u>Praxis Data Science Reviews</u>" report, offering an in-depth analysis of Praxis Business School's flagship data science programs. This SEO-optimized press release highlights key findings from Praxis data science reviews, equipping aspiring professionals with actionable insights into curriculum quality, placements, faculty expertise, and career outcomes in India's booming analytics sector. As demand for skilled data scientists surges, Analytics Jobs continues to bridge the gap between education and employment through unbiased evaluations.

Spotlight on Praxis Data Science Reviews
Praxis data science reviews reveal a mixed yet insightful landscape for the nine-month full-time PGP in Data Science at Praxis Business School, Kolkata. Learners praise the program's blend of statistics, machine learning, Python, R, SQL, Spark, and AWS, alongside capstone projects that simulate real-world analytics challenges. However, some Praxis data science reviews criticize the curriculum's depth, subpar placements compared to top-tier institutes, and variability in professor qualifications, urging prospective students to weigh these factors against their career goals. Analytics Jobs aggregated over 100 genuine alumni testimonials, Distinguished Speaker Series feedback, and industry recruiter inputs to ensure a balanced view.

Positive Praxis data science reviews emphasize Praxis's role in career transitions, with alumni securing roles like data scientist, AI/ML developer, and analytics consultant at firms such as EY, Genpact, PwC, Tata Steel, and Latent View. The program's focus on predictive analytics, data visualization, and business acumen stands out, fostering digitally proficient leaders. Analytics Jobs notes that strong industry ties and hands-on labs contribute to over 80% placement claims in select batches, though recent Praxis data science reviews highlight room for improvement in salary packages averaging INR 8-12 lakhs annually.

Analytics Jobs: Pioneering Course Transparency in India
Analytics Jobs, India's leading course reviews portal, has analyzed over 500 data science and analytics programs since 2020, attracting 500,000+ monthly visitors via targeted searches like "Praxis data science reviews." Unlike generic platforms, it prioritizes job-market relevance,

covering fees (INR 50,000–1,50,000), durations (6-12 months), and alumni success stories from Varanasi startups to Mumbai enterprises. This latest Praxis data science reviews report aligns with recent releases, such as the "Learnbay Reviews" analysis, underscoring Analytics Jobs' commitment to SEO-driven transparency for analytics jobs seekers.

By curating Praxis data science reviews alongside metrics on mentorship, projects, and complaints, Analytics Jobs empowers users to make informed decisions. The portal's YouTube channel features video testimonials and expert breakdowns, boosting visibility for queries like "Praxis data science course reviews placements." As India's ed-tech sector addresses skill gaps for 500,000+ annual aspirants, Analytics Jobs remains the go-to resource.

Key Takeaways from Praxis Data Science Reviews
Curriculum Strengths: Comprehensive coverage of ML, stats, and tools like Hadoop, MongoDB, and Excel; ideal for beginners transitioning to analytics jobs.

Placement Insights: Ties with top recruiters yield roles in data engineering and consulting, though average packages lag behind IIT/IIM peers per Praxis data science reviews.

Faculty and Support: Experienced industry pros via Distinguished Speaker Series; some reviews note gaps in academic rigor.

Value for Money: Affordable compared to full-time MBAs, with capstone projects enhancing resumes for analytics jobs in India.

Aspect	Strengths per Praxis Data Science Reviews	Areas for Improvement	Avg. Rating (Out of 5)
Curriculum	Practical tools (Python, SQL, AWS)	Depth in advanced topics	4.0
Placements	80%+ rate; EY, PwC roles	Salary (INR 8-12L)	3.5
Faculty	Industry experts, real-world insights	Qualification consistency	4.2
Overall ROI	Career shifts enabled	Compared to online alternatives	3.8

Praxis data science reviews consistently affirm the school's evolution, with over 30 batches graduated and a focus on stakeholder feedback for continuous enhancement. Analytics Jobs recommends it for mid-career professionals eyeing analytics jobs, but advises verifying latest batch outcomes.

Why Praxis Data Science Reviews Matter for Analytics Jobs
In India's analytics job market—projected to hit 2 million openings by 2027—transparent reviews are crucial. Praxis data science reviews from Analytics Jobs highlight how programs like PGP in

Data Science build skills for high-demand roles amid AI growth. Alumni stories showcase transitions from software engineering to data science, bolstered by infographics training and ethical data practices.

Analytics Jobs, as India's leading course reviews portal, integrates these insights with job listings, resume tips, and LinkedIn strategies tailored for Varanasi-based creators like Raj Gupta. Searches for "Praxis data science reviews placements complaints" now direct users to this report, optimizing SEO for long-tail keywords.
