

AmpVortex Becomes the First Matter-Certified Multi-Room Streaming Amplifier Brand

Breaking Ecosystem Lock-In at the Infrastructure Level

DENVER, CO, UNITED STATES, February 23, 2026 /EINPresswire.com/ --

[AmpVortex](#) today announced that its entire 16060 and 16100 series has officially achieved Matter certification, becoming the first brand in the professional multi-room streaming amplifier category to reach this milestone.

This marks a structural shift in how distributed audio integrates with global smart home ecosystems.

Certified Product Portfolio

AmpVortex's Matter certification covers the complete 16060 and 16100 product families:

16060 Series

- [AmpVortex-16060](https://www.ampvortex.com/product/ampvortex-16060/): <https://www.ampvortex.com/product/ampvortex-16060/>
- [AmpVortex-16060A](https://www.ampvortex.com/product/ampvortex-16060a/): <https://www.ampvortex.com/product/ampvortex-16060a/>
- [AmpVortex-16060G](https://www.ampvortex.com/product/ampvortex-16060g/): <https://www.ampvortex.com/product/ampvortex-16060g/>

16100 Series

- [AmpVortex-16100](https://www.ampvortex.com/product/ampvortex-16100/): <https://www.ampvortex.com/product/ampvortex-16100/>
- [AmpVortex-16100A](https://www.ampvortex.com/product/ampvortex-16100a/): <https://www.ampvortex.com/product/ampvortex-16100a/>
- [AmpVortex-16100G](https://www.ampvortex.com/product/ampvortex-16100g/): <https://www.ampvortex.com/product/ampvortex-16100g/>

All certified models support 8 zones, 16 channels, and full cross-ecosystem interoperability.

The flagship 16100 series delivers 100W per channel, ensuring powerful and stable multi-room performance suitable for luxury residences and professional installations.

Built for the Two Dominant Ecosystems: Apple & Google

AmpVortex is engineered to operate natively within the world's leading smart home platforms:

Apple Home + AirPlay 2 (8× simultaneous Airplay2 streams on All Version)

Google Home + Google Cast (8× simultaneous Cast streams on G-Version)

This dual-core compatibility ensures:

- Native onboarding within Apple and Google ecosystems
- Cross-platform automation participation
- Unified voice control via Siri and Google Assistant
- Elimination of ecosystem lock-in

Universal Streaming & Full Connectivity Architecture

All AmpVortex models support:

- AirPlay 2
- Spotify Connect
- Qobuz Connect
- Google Cast
- DLNA
- Bluetooth Audio
- HDMI ARC
- Line In / Line Out
- SPDIF In / SPDIF Out

With support for 192kHz high-resolution audio and full lossless music playback, AmpVortex delivers audiophile-grade performance across every zone.

Advanced Model Differentiation

A-Version — Immersive Architecture

Supports Dolby Atmos 10.4.6 configuration, designed for high-end immersive audio installations.

G-Version — Multi-Cast Architecture

Supports 8 simultaneous Google Cast streams, optimized for scalable multi-zone casting.

Deep Integration with Professional Automation Platforms

Beyond consumer ecosystems, AmpVortex integrates with:

- KNX
- Control4
- Home Assistant

This bridges consumer smart home platforms with professional automation systems and open-source environments.

From Sound Competition to Ecosystem Leadership

For years, distributed audio brands competed on power ratings and DAC specifications.

AmpVortex competes on infrastructure relevance.

By combining:

- Matter certification
- Apple & Google native integration
- Universal streaming standards
- Professional automation compatibility

AmpVortex transforms distributed audio into a fully interoperable smart infrastructure

component.

CEO Statement

“For too long, distributed audio has existed inside closed ecosystems,” said Marshall, CEO of AmpVortex.

“Matter changes the foundation — but only if infrastructure-level products adopt it. AmpVortex is the first to bring true multi-room amplification into the open ecosystem era. This is not about adding compatibility. It’s about redefining the role of audio in connected living.”

Cross-Ecosystem Certification Coverage

AmpVortex Matter-certified compatibility includes:

Consumer Smart Home Platforms

- Apple Home
- Google Home
- Amazon Alexa
- Samsung SmartThings
- LG ThinQ
- Tuya
- Aqara
- flic

Open & Professional Platforms

- Home Assistant
- KNX
- Control4

Technical Architecture Summary

- 8 Zones
- 16 Channels
- 100W per Channel (16100 Series)
- 192kHz High-Resolution Audio
- Lossless Music Playback
- Dolby Atmos 10.4.6 (A-Version)
- 8× Google Cast (G-Version)

Designed for the Future of Open Smart Infrastructure

By certifying its entire lineup and integrating universal streaming and automation standards, AmpVortex ensures:

- Reduced ecosystem dependency
- Long-term firmware adaptability
- Protection of integrator investment
- Future-ready cross-platform compatibility

AmpVortex establishes a new benchmark for openness, scalability, and ecosystem neutrality in professional multi-room audio.
