

# Scrut Automation Earns Spot #9 on G2's 2026 Best Software Awards for GRC Products

MILPITAS, CA, UNITED STATES, February 23, 2026 /EINPresswire.com/ -- Scrut Automation, a leading Governance, Risk, and Compliance (GRC) platform, today announced it has been named one of the top 50 in [G2's 2026 Best Software Awards](#), placing #9 on the GRC Products list.

We're building an AI-native GRC company that functions like a partner, helping teams eliminate execution debt and stay continuously audit-ready"

*Aayush Ghosh Choudhary*

As the world's largest and most trusted software marketplace, G2 reaches over 100 million buyers annually. Its annual Best Software Awards rank the world's best software companies and products based on authentic, timely reviews from real users.

The recognition in G2's 2026 Best Software Awards validates Scrut Automation's mission to transform how modern businesses approach governance, risk, and compliance. Scrut is focused on moving teams from

reactive, point-in-time compliance to continuous, AI-powered risk management, helping organizations reduce execution overhead, maintain audit readiness, and grow with confidence.

Aayush Ghosh Choudhary, CEO and Co-founder, Scrut Automation, noted, "We're incredibly proud to be recognized in G2's 2026 Best Software Awards. What makes this special is that it's driven by real customer feedback. At Scrut, we're focused on owning compliance and risk outcomes, not just providing another dashboard. We're building an AI-native GRC company that functions like a partner, helping teams eliminate execution debt and stay continuously audit-ready. This recognition validates the impact we're delivering for modern, growing businesses. "

"As buyers increasingly shift to AI-driven research to discover software solutions, being recommended in the 'answer moment' must be earned with credible proof," said Godard Abel, co-founder and CEO at G2. "Our Best Software Awards are grounded in trusted data from authentic customer reviews. They not only give buyers an objective, reliable guide to the products that help teams do their best work, but they're also the proof AI search platforms rely on when sourcing answers. Congratulations to this year's winners, including Scrut Automation. Earning a spot on these lists signals real customer impact."

[About G2's Best Software Awards](#)

G2's 2026 Best Software Awards feature dozens of award lists, ranking software vendors and

products using G2's proprietary algorithm. The results are based on G2's verified user reviews and publicly available market presence data. To be eligible for the Best Software Awards, a software company or product must have received at least 10 approved reviews during the 2025 calendar year. Scores reflect only data from reviews submitted during this evaluation period.
