Tom Pfennig, CEO of TRANSFORMING.LEGAL and GOLT.ai, addresses a key challenge impacting the Legal AI market:

"It is a jungle out there. With fierce competition across product categories, users are challenged to make informed decisions. G.O.L.T.® STAR certification adds a layer of trust and confidence."

KonaAI, a Covasant company, is an intelligent risk and fraud detection platform that enables organizations to maintain an innovative and defensible compliance and risk management system. KonaAI supports companies in strengthening governance frameworks while proactively identifying and mitigating risk.

Vince Walden, CEO of konaAI, a Covasant company, emphasizes the importance of independent validation:

“We have built our product with the user at the center. We do not shy away from third-party software assessment, as it helps us stay ahead of the competition and saves our clients time and resources otherwise spent on costly proof-of-concept exercises. G.O.L.T.® STAR certification is a natural step for us, assuring our clients that we deliver on our promises.”

Organizations seeking to differentiate their solutions, stand out from competition, and integrate an objective trust layer into their go-to-market strategy will find a strategic partner in TRANSFORMING.LEGAL and its G.O.L.T.® STAR certification.
