

ProHance Highlights Scalable, Responsible AI Adoption at nasscom NTLF 2026

Stress on governance, data integrity and measurable business impact as enterprises scale responsible AI adoption at NTLF 2026.

MUMBAI, MAHARASHTRA, INDIA, February 27, 2026 /EINPresswire.com/ -- [ProHance](#), the next-gen AI-led Workforce Management and Operations Enablement platform, reinforced its leadership in enterprise AI transformation at the [nasscom Technology & Leadership Forum 2026 \(NTLF 2026\)](#).

NTLF is considered one of Asia's most influential technology leadership gatherings - where [Ankur Dhingra](#),

CEO, ProHance, joined distinguished industry leaders including Ankit Bose, Head – AI at nasscom, Sandeep Dutta, Officer & Head of APAC at Fractal, and Sandeep Kumar Saxena, Chief Growth Officer - Growth Markets 2 at HCLTech, for a high-impact discussion on scaling AI responsibly across enterprises.

“

Enterprises that treat AI as a performance transformation initiative - not just a technology upgrade - will define the next decade.”

*Ankur Dhingra, CEO,
ProHance*

The session focused on moving beyond experimentation toward enterprise-wide AI adoption anchored in governance, operational rigor, and measurable business outcomes.

“AI ambition alone is not enough. Sustainable impact comes from aligning leadership conviction with operational discipline and trusted data foundations. Enterprises that treat AI as a performance transformation initiative - not

just a technology upgrade - will define the next decade,” said Dhingra.

ProHance CEO Ankur Dhingra speaks at nasscom NTLF 2026 in Mumbai

Key themes that emerged from the discussion were:

- From pilot to population scale: AI must move beyond isolated proof-of-concepts pilots into enterprise-wide workflows that drive measurable productivity and performance gains.

- Governance as a growth enabler: Strong data integrity, compliance frameworks, and operational controls are critical to scaling AI responsibly in complex global organizations.

- Leadership alignment drives impact: Successful AI adoption requires boardroom conviction, cross-functional collaboration, and clearly defined performance metrics.

ProHance's AI-led workforce intelligence platform enables organizations to translate data into actionable insights, helping leaders elevate productivity, enforce compliance, optimize costs, and adapt seamlessly to evolving business landscapes.

As enterprises accelerate generative AI and advanced analytics initiatives, ProHance continues to champion an outcomes-first approach - where technology, governance, and operational intelligence converge to unlock sustainable enterprise value.

ABOUT PROHANCE
