

Raymond Cruz Appears in Cinematic Music Film for Miyagi & Endspiel's Anabios

Shot in Mexico, the myth-driven visual film accompanies the duo's 7th studio album and explores themes of rebirth and transformation.

LOS ANGELES, CA, UNITED STATES, March 1, 2026 /EINPresswire.com/ -- Miyagi & Endspiel present Anabios, their 7th studio album, through a [cinematic music film](#) directed by Yan Bokhanovich and produced by [SNAKK \(Los Angeles\)](#). Shot in Mexico, the film transforms the album's themes into a myth-driven visual narrative rooted in symbolism, atmosphere, and psychological movement.

Conceived as a modern legend, Anabios abandons linear storytelling in favor of fragmented realities and symbolic progression, culminating in a final revelation centered on rebirth.

The film features Raymond Cruz, internationally recognized for his role in Breaking Bad. His restrained, symbolic presence draws from Mictlantecuhtli, the Aztec lord of the underworld, reinforcing the film's meditation on passage and renewal.
