

Charlotte Roofing Contractor Hatch Homes Completes Advanced 2026 Owens Corning Contractor Training at UNC Charlotte

Charlotte, NC roofing contractor Hatch Homes completed advanced training at UNC Charlotte on roofing standards, ventilation, and storm performance.

CHARLOTTE, NC, UNITED STATES, March 2, 2026 /EINPresswire.com/ -- [Charlotte roofing contractor Hatch Homes completed the 2026 Owens Corning Contractor Education Event](#) hosted at the University of North Carolina at Charlotte, joining licensed roofing professionals from across North Carolina for advanced manufacturer-led training centered on roofing system performance, updated installation standards, and warranty-backed compliance.

The structured education program provided detailed instruction on system-based roof replacement methodology, including enhanced ventilation design, updated warranty requirements, high-wind installation standards, and evolving shingle technologies engineered for storm-prone regions such as Charlotte and the greater Piedmont area. The curriculum specifically emphasized correct installation sequencing to ensure Charlotte roof replacement projects meet manufacturer specifications and long-term performance benchmarks.

[As an Owens Corning Preferred Contractor](#), Hatch Homes maintains ongoing alignment with manufacturer-certified installation standards. During the Charlotte-based training session, instructors utilized a full-scale constructed roofing model to demonstrate proper integration of synthetic underlayment systems, starter shingles, flashing assemblies, ridge ventilation

components, and complete roofing system construction.

Hands-on demonstration and technical review reinforced the direct relationship between proper system assembly, warranty eligibility, wind uplift ratings, and long-term roof durability. For homeowners evaluating roof replacement in Charlotte, manufacturer-aligned installation standards remain a critical factor in overall system performance and insurance qualification.

“Continuing education strengthens accountability and installation precision,” said Yorin Van Wilsum, Project Manager at Hatch Homes. “For every Charlotte roof replacement project we complete, adherence to current Owens Corning system standards ensures homeowners receive a roofing system installed according to nationally recognized best practices.”

Owens Corning’s contractor education initiatives are designed to reinforce technical accuracy, product knowledge, and quality control among Preferred Contractors. As severe weather events and insurance scrutiny increase across North Carolina, professionally installed roofing systems built to manufacturer specifications play an essential role in protecting structural integrity and long-term property value.

“

Homeowners in Charlotte, NC can trust Hatch Homes for expert roof replacement and roofing systems installed to Owens Corning standards, built for lasting performance and protection.”

Bill Gayler

Hatch Homes provides professional roof replacement services throughout Charlotte and surrounding North Carolina communities. The company also specializes in fiber cement siding, window replacement, and composite decking systems. Participation in ongoing manufacturer

education strengthens the company’s authority within the Charlotte roofing market while supporting consistent installation standards across all exterior remodeling divisions.
