Clean Energy & Renewables Virtual Investor Conference
March 5th, 2026

b2idigital | Official Marketing Partner

Live Executive Presentations From Public Companies
Across the Clean Energy Landscape

The Clean Energy & Renewables Virtual Investor Conference connects presenting companies with a global audience of individual and institutional investors through live, interactive online presentations. Participating companies deliver scheduled presentations followed by real-time Q&A, and investors can request one-on-one meetings with management teams through the VIC platform. After the event, presentation replays are made available for on-demand viewing on the OTC Markets and B2i Digital YouTube channels.

“VIC is built for real access,” said David Shapiro, Chief Executive Officer of B2i Digital. “You hear the story, ask questions live, and if you want to go deeper, you can request a one-on-one meeting with management. It is a clean, efficient format for companies and investors alike.”

As the Official Marketing Partner, B2i Digital supports presenting companies before, during, and after each VIC event through coordinated investor outreach across its digital channels. This includes publishing dedicated company profiles ahead of the conference, featuring participating issuers across B2i Digital’s social platforms, and making conference presentation replays available in a dedicated YouTube playlist following the event to support ongoing visibility and investor engagement.
