

# Elizabeth Aguilera Examines Self-Awareness, Agency, and Renewal in MyStory™

LOS ANGELES, CA, UNITED STATES, March 3, 2026 /EINPresswire.com/ -- Coach, entrepreneur, and advocate for women's healing Elizabeth Aguilera is featured in a new episode of MyStory™, sharing a reflective account of how early family values, long-term emotional manipulation, and professional disruption reshaped her understanding of self-worth, autonomy, and fulfillment. Now streaming on Amazon Prime®, Apple TV®, The Success Network® and Google Play®, Aguilera's episode explores how inner clarity becomes the foundation for meaningful change.

Raised by Cuban immigrant parents who came to the United States fleeing political upheaval, Aguilera grew up in a household defined by perseverance, dignity, and pride in honest work. Her father's steady determination (and his example of advancing from manual labor to a professional career while supporting an extended family) instilled in her the belief that effort, integrity, and education could change one's circumstances. Though resources were limited, the household was anchored by purpose and example.

As a child, Aguilera experienced profound solitude, often channeling her focus into academics as a means of moving forward. However, that discipline did not protect her from relational vulnerability. At sixteen, she entered a long-term relationship characterized by control and emotional manipulation, dynamics she initially misinterpreted as devotion. This relationship spanned critical developmental years, quietly diverting her from her ambitions and undermining her confidence in her own judgment.

Despite personal challenges, Aguilera built a successful career in corporate America, remaining with a single organization for more than three decades. Over time, the demands of a misaligned work environment compounded earlier relational strains, leaving little room for reflection or recalibration. When her position was ultimately outsourced, the abrupt separation forced a reckoning that revealed how deeply she had postponed listening to her own internal signals.

What initially felt like a loss became an opportunity. Aguilera launched her own service-based business, quickly establishing a thriving practice supporting seniors and overwhelmed families. Years later, another internal shift prompted her to pivot again, this time toward coaching. With the space to reassess her direction deliberately, she aligned her work with a deeper commitment: helping women recognize patterns of manipulation, reclaim their agency, and rebuild confidence without self-blame.

Central to Aguilera's message is the belief that transformation begins internally. Through self-awareness, setting boundaries, and reflection, she encourages women to trust their perceptions and honor what no longer serves them. Her episode underscores a critical insight: waiting for an external crisis often delays necessary change, while early attention to inner signals preserves both time and well-being.

"Elizabeth's story highlights the quiet strength required to choose yourself after years of accommodation," said Emmy® Award-winning producer Nick Nanton, co-creator of MyStory™. "Her journey offers clarity and reassurance to anyone navigating personal or professional misalignment."

Elizabeth Aguilera's episode of MyStory™ is now available to stream on Amazon Prime®, Apple TV®, The Success Network® and Google Play®.

#### About Elizabeth Aguilera

Elizabeth Aguilera is a coach and entrepreneur who supports women in rebuilding confidence, self-trust, and direction after emotionally coercive relationships. Drawing from both lived experience and professional expertise, she helps clients cultivate self-awareness, establish boundaries, and take intentional next steps.

#### About MyStory™

MyStory™ is an original docuseries from Emmy® Award-winning producers that profiles leaders, advocates, and changemakers through candid, reflective storytelling. Each episode explores the experiences that shape discernment, responsibility, and long-term impact.
