

LoanLogics Evaluates Deterministic AI From Quantum General Intelligence (QGI) to Strengthen Mortgage Compliance

LoanLogics, the mortgage compliance platform is actively evaluating Quantum General Intelligence's (QGI) deterministic AI platform

SAN DIEGO, CA, UNITED STATES, March 4, 2026 /EINPresswire.com/ -- LoanLogics, the Sun Capital Partners-backed mortgage compliance platform embedded at leading U.S. lenders, is actively evaluating Quantum General Intelligence's (QGI) deterministic AI platform to enhance explainability and provable audit trails in regulated mortgage decisioning.

"LoanLogics has embraced trusted and responsible AI to drive innovation in mortgage compliance and quality management, powering fast, accurate workflows in solutions like CARBN. We're actively evaluating Quantum General Intelligence's deterministic platform, within our AI Governance framework, to further enhance explainability and provable audit trails in regulated decisioning—addressing key gaps in probabilistic AI and strengthening compliance for our lender partners."

— David Parker, CEO, LoanLogics

QGI's deterministic AI platform combines formal reasoning with LLM to produce deterministic, verifiable outputs—closing critical gaps left by probabilistic AI in high-stakes compliance environments. The evaluation is being conducted within LoanLogics' enterprise AI Governance framework as regulators intensify scrutiny of AI-driven lending decisions.

Further announcements are expected as the evaluation progresses.

QGI LOGO DARK THEME

“

Regulated industries needs AI they can audit and trust . LoanLogics' commitment to rigorous evaluation process reflects exactly the kind of enterprise leadership that will define the next era of AI.”
