

# CCS Launches Connected Voice: A Powerful, Scalable VoIP Solution for Modern Business Communications

*Built for flexibility and performance, Connect Voice enables businesses to manage calls, users, and communication workflows from virtually anywhere.*

HAUPPAUGE, NY, UNITED STATES, March 4, 2026 /EINPresswire.com/ -- CCS, a premier

CCS Connected Voice delivers a complete, scalable solution that combines enterprise-grade calling features, flexible deployment, and centralized management into one unified solution."

*Adam Lapitino, Chief Growth Officer*

technology services provider, announced the official launch of [CCS Connected Voice](#), a robust, all-encompassing Unified Communications solution designed to deliver reliable, high-quality, and cost-effective business communications. The solution is now live at: [www.ccsconnectedvoice.com](http://www.ccsconnectedvoice.com).

CCS Connected Voice provides organizations with a modern cloud-based phone system that replaces traditional landlines with advanced internet-powered calling technology. Built for flexibility and performance, the solution enables businesses to manage calls, users, and communication workflows from virtually anywhere.

"CCS Connected Voice delivers a complete, scalable voice solution that grows with an organization," said Adam Lapitino, Chief Growth Officer at CCS. "By combining enterprise-grade calling features, flexible deployment, and centralized management into one unified solution, we're enabling businesses to modernize their voice infrastructure, simplify operations, and scale seamlessly as their needs evolve."

Key Features of the CCS Connected Voice Solution Include:

- **Cloud-Based VoIP Calling:** Reliable, high-definition voice service over secure internet connections
- **Scalable Architecture:** Easily add or remove users as organizational needs evolve
- **Advanced Call Management:** Features such as call routing, auto attendants, voicemail-to-email, call forwarding, and more
- **Remote & Hybrid Work Enablement:** Access business phone capabilities from desktop or mobile devices

- Cost Efficiency: Lower infrastructure and maintenance costs compared to traditional PBX systems
- MS Teams Operator Connect: Unlock enterprise-grade phone features directly in Teams, minus the complexity

Designed for businesses seeking enhanced flexibility and operational efficiency, CCS Connected Voice supports both small teams and growing enterprises with enterprise-grade functionality and dependable uptime.

The launch of CCS Connected Voice reflects CCS's continued commitment to delivering innovative solutions that help organizations modernize operations and stay connected in today's fast-paced digital environment.
