

# Checkrun Recognized as Best Value and Most Recommended Accounts Payable Software for 2026

Gartner Digital Markets Platforms  
Capterra and Software Advice Honor the  
Payment Issuance Platform for  
QuickBooks Online Users Based on  
Verified User Reviews.

CARLSBAD, CA, UNITED STATES, March  
5, 2026 /EINPresswire.com/ --  
[Checkrun, the payment issuance  
platform built for QuickBooks Online](#)

[users](#), today announced it has been recognized as the “Best Value” software by Capterra and the “Most Recommended” software by Software Advice in the Accounts Payable Software category for 2026. Both Capterra and Software Advice are operated by Gartner Digital Markets, a global B2B platform connecting buyers with software solutions through verified reviews and research.

Checkrun enables businesses to securely issue checks and electronic payments efficiently from a single platform, improving speed, accuracy, and control.”

These honors are based on verified user feedback collected across Capterra and Software Advice, reflecting Checkrun’s proven performance in helping businesses modernize payment issuance while maintaining the controls and workflows they rely on every day. Buyers highlighted Checkrun’s ease of use, flexibility, and ability to streamline accounts payable processes without requiring changes to existing accounting systems.

[Developed by AP Technology](#), Checkrun is designed specifically for organizations that continue to rely on checks while seeking greater automation, security, and control. As many industries still require checks for compliance, trust, and operational needs, Checkrun bridges the gap between traditional payment methods and modern accounts payable automation.

Checks remain a critical payment method for businesses such as law firms, real estate offices, automotive enterprises, construction companies, professional services firms, and other

Checkrun. Payment control for QuickBooks Online users.

organizations that require frequent approvals and payments. Checkrun enables businesses to securely issue checks and electronic payments efficiently from a single platform, improving speed, accuracy, and control.

Checkrun integrates directly with QuickBooks Online accounting data, allowing finance teams to route payments for approval, and issue payments with confidence—whether checks are printed remotely, mailed, or delivered electronically. By enhancing existing QuickBooks Online workflows, Checkrun allows businesses to modernize at their own pace without the disruption of adopting complex new processes.

Key Checkrun capabilities include:

- Remote Check Printing — Securely print and issue checks from anywhere, supporting distributed, hybrid, and multi-location teams.
- [Payee Deposit Choice](#) — Payees have three choices of how they'd like to deposit funds: self-print and deposit, by mobile deposit, or by having a physical check mailed to them.
- Automated Approval Workflows — Digitally route payments for review and authorization, reducing bottlenecks and manual handling.
- Built-In Security and Controls — Maintain detailed audit trails, archived payment images, and clear reconciliation back to QuickBooks Online.
- Mobile Access — Approve, sign, and schedule payments from anywhere using Checkrun's mobile app.

Checkrun recognized as the “Best Value” software by Capterra

Checkrun: “Most Recommended” software by Software Advice in the Accounts Payable Software category for 2026.

Many organizations continue to struggle with accounts payable because modern solutions often require prefunding into third party bank accounts, or they result in a loss of control with vendors. Expensive interchange-based payments can also pose challenges. Checkrun eliminates these barriers by extending the capabilities businesses already use. By reducing manual check handling and disconnected processes, Checkrun helps finance teams lower error rates, improve cash-flow visibility, and operate more efficiently.

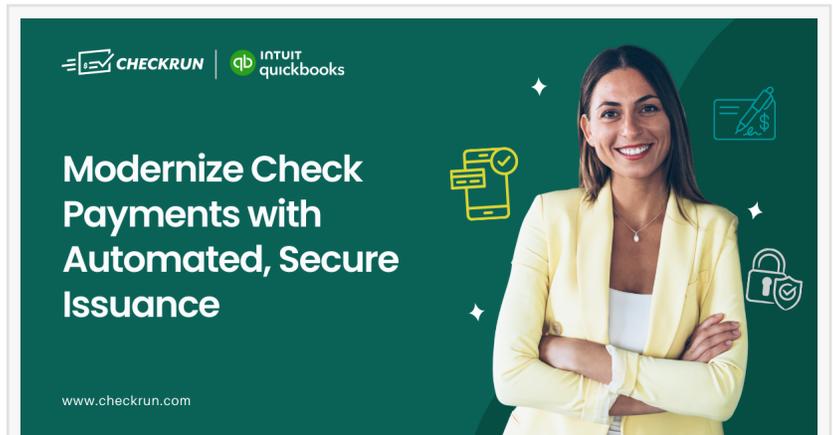

“Being recognized by Capterra and Software Advice is especially meaningful because these awards are driven by verified customer feedback,” said Tyler Gill, Chief Growth Officer of AP Technology. “We are honored that users see Checkrun as both a best-value and a highly recommended solution. These awards validate our mission to give businesses a fast, efficient, secure, more modern way to issue business payments.”

Checkrun is available to QuickBooks Online users and can be implemented quickly with minimal disruption. To learn more and to request a demo, visit [www.checkrun.com](http://www.checkrun.com).

#### About Checkrun

Checkrun is the ACH and check payment issuance platform for QuickBooks Online users developed by business payment software pioneer, AP Technology. Cloud-based Checkrun includes a mobile app that enables users to approve, sign, and schedule payments anytime, anywhere. Automated processes eliminate manual tasks, making Checkrun essential for secure, modern payment issuance. Annually, AP Technology customers process more than \$140 billion in payments through its suite of solutions, including APSecure, SecureCheck, SecurePay Advantage, ezSigner Direct, and Checkrun.
