

YouTube Video Promotion Expands Global Reach: Google Ads-Powered Service Now Targeting Creators in India and Philippines

LONDON, UNITED KINGDOM, March 6, 2026 /EINPresswire.com/ -- [YouTube Video Promotion](https://www.youtubevideopromotion.com/)

(youtubevideopromotion.com) today announced the extension of its Google Ads-based video promotion services to creators in India and the Philippines. This follows successful rollouts in the United States, United Kingdom, Canada, and Australia.

With India leading the world with over 500 million YouTube users and the Philippines approaching 60 million — many of whom create content in English and target global audiences — these markets represent significant opportunities for creators seeking compliant growth tools. YouTube Video Promotion addresses this demand by delivering 100% compliant YouTube video promotion through official Google Ads campaigns, including TrueView In-Stream and Discovery ads, to drive genuine, engaged views from targeted real users.

Unlike risky bot services that can lead to penalties or demonetization, the platform guarantees real views, increased watch time, and stronger algorithm signals — all while staying fully aligned with YouTube’s Terms of Service and Google Ads policies. Campaigns launch fast (often within 24 hours), with precise country targeting, demographic options, and detailed post-campaign reports for full transparency.

The screenshot displays the YouTube Video Promotion website interface. At the top, there is a red megaphone icon with a play button inside, followed by the text "YOUTUBE VIDEO PROMOTION" and "Powered By Google Ads". Below this, the URL "youtubevideopromotion.com" is shown. The main content area features three panels: "Tell Us About Your Video" with a smartphone image and a text input field; "Choose Your Package" with a world map and a "Choose Your Package" button; and "We Launch Fast" with a bar chart showing ad performance across devices (Mobile phones, Tablets, Computers, TV screens) and a "We Launch Fast" section stating "Most campaigns go live within 24 hours." The bottom of the screenshot shows the text "TrueView Views".

“Creators in India and the Philippines are producing world-class content in music, vlogs, tutorials, gaming, and more — but many struggle to break through the noise,” said a spokesperson for YouTube Video Promotion. “Our service provides the rocket fuel they need: thousands to millions of real views that boost

organic reach, help hit monetization thresholds (1,000 subs + 4,000 watch hours), and improve rankings in YouTube search. We've already helped brands, artists, and influencers in the USA, UK, Canada, and Australia achieve explosive results — now we're bringing that same power here.

Zero Bots!
