

# PrepScholar Launches AI Learning Assistant for SAT Prep

CAMBRIDGE, MA, UNITED STATES, March 9, 2026 /EINPresswire.com/ -- [PrepScholar](#), a leading test prep and college prep company, is pleased to announce the launch of their [AI Learning Assistant](#), a new SAT prep tool designed to bridge the gap between self-directed study and one-on-one tutoring.

AI Learning Assistant is an always-available tool built directly into the Complete SAT Prep program. Unlike standard chatbots that simply provide a solution, this assistant utilizes Socratic prompting to guide students through the specific SAT traps.

It's modeled after how PrepScholar's 99-percentile tutors teach: asking questions, challenging assumptions, and reinforcing reasoning step by step. This personalized feedback loop ensures that mastery is achieved through active participation rather than passive reading, making high-level SAT strategies accessible to a wider range of learners.

"PrepScholar's new AI Learning Assistant combines proven test-prep strategies with real-time, one-on-one guidance for every learner, no matter their starting point," says CEO Peter Bencivenga. "It doesn't replace great teaching; it amplifies it, helping students stay motivated, get unstuck faster, and build confidence."

The AI Learning Assistant is available now as an add-on to the Complete SAT Prep program and will be rolled out for ACT prep in the near future.

## Key Features:

**24/7 Availability and Flexibility** — Access the AI assistant anywhere and anytime you can log into your PrepScholar account.

**Instant Feedback and Explanations** — Work with the AI assistant to understand your mistakes.

**Built for the Hardest Questions** — Learn the logic behind the SAT through interactive question explanations.

**Cost-Effective Tutoring** — Get one-on-one help for a much lower cost than traditional tutoring.
