In its search for customer and patient service excellence, City Beat News is continually taking nominations for companies and service providers that offer top-notch service, granting the [Spectrum Award](#) to those that earn high rankings.

In partnership with [the Stirling Center](#) for Excellence, City Beat News uses its independent, proprietary research and evaluation system to identify businesses with a track record of providing a great customer or patient experience. The rating system combines data collected from nominations, online and other customer reviews, surveys, blogs, social networks, business-rating services, and other honors and accolades — all of which express the voice of the consumer. It brings many sources of information together into one rating for the year that shows the whole picture and avoids the pitfalls of unfounded or unjustified negative commentary posted by an unhappy employee or competitor.

Consumers value a legitimate source they can trust to help them find companies that will not only meet their needs, but also exceed their service expectations. The Spectrum Award is a great indicator of future customer and patient service.
