Through the SSBCI Technical Assistance Program, eligible Arizona startups and small businesses can receive legal services at no cost, with funding provided through the Arizona Commerce Authority. The program is designed to

support businesses preparing to access capital and scale operations, ensuring they have the foundational infrastructure necessary for sustainable growth.

Litix Legal will provide a range of services tailored to entrepreneurs, including:

- Entity formation and structuring
- Operating agreements and governance documents
- Employment and independent contractor agreements
- Capital readiness preparation
- Strategic legal guidance for early-stage businesses

"This program removes one of the most significant barriers founders face: access to affordable legal support," said Ryan Hurley, Founder of Litix Legal. "Entrepreneurs shouldn't have to delay proper legal structuring because of cost concerns. Through the SSBCI Technical Assistance Program, we can help Arizona founders build strong legal foundations from day one."

Litix Legal is known for its transparent flat-fee pricing model, designed to eliminate uncertainty

around legal costs — a model that aligns closely with the needs of early-stage businesses operating with limited capital.

The SSBCI Technical Assistance Program is part of a broader effort to strengthen Arizona's entrepreneurial ecosystem by preparing businesses to access funding and compete in the marketplace. By partnering with ACA, Litix Legal is positioned to support startups within Arizona's rapidly growing innovation and small business landscape.

"Our goal is simple," Hurley added. "We want Arizona to be the best place in the country to start and scale a business. Strong legal infrastructure is a critical part of that."
