PALM BEACH, FL, UNITED STATES, April 7, 2026 /EINPresswire.com/ -- As artificial intelligence continues to reshape industries around the world, entrepreneurs and professionals are searching for trusted voices who can help them understand what the future of AI actually means for their businesses and careers.

The banner for the AI Advantage Summit 2026 virtual event features a collage of speakers including Tony Robbins, Dean Graziosi, and Igor Pogany. The text on the banner reads: 'VIRTUAL EVENT', 'Tony Robbins, Dean Graziosi & Igor Pogany present', 'AI Advantage Summit 2026', 'JOIN FOR FREE', and '3 DAYS | APRIL 23rd, 24th & 25th, 2026 | 11 AM PT | 12PM MT | 1PM CT | 2PM ET'. Below the banner, the text reads: 'AI Advantage Summit with Dean Graziosi, Tony Robbins and top AI leaders'.

To help bring clarity to this rapidly evolving landscape, Tony Robbins and Dean Graziosi are bringing together some of the most respected thinkers and educators in artificial intelligence for the upcoming AI Advantage Summit, a free three-day global virtual event designed to help people understand and apply AI in practical ways.

“

People don't just need new tools. They need new understanding.”

Igor Pogany

The AI Advantage Summit, taking place April 23–25, 2026, will feature renowned futurist Ray Kurzweil and AI educator Igor Pogany, alongside hosts Tony Robbins and Dean Graziosi.

Registration for [the AI Advantage Summit is now open at AIAdvantageSummit.com](https://AIAdvantageSummit.com).

Kurzweil, widely recognized as one of the world's leading thinkers on technological acceleration and artificial intelligence, has spent decades studying how emerging technologies shape the future of humanity.

At the AI Advantage Summit, Kurzweil will share insights into how artificial intelligence is evolving

and what the next wave of innovation may look like.

Alongside Kurzweil, Igor Pogany, Head of AI Education for AI Advantage, will guide attendees through practical demonstrations designed to show how artificial intelligence can be applied in everyday business and professional environments.

Pogany has become widely recognized for his ability to simplify complex AI tools and help entrepreneurs use them to reclaim time, increase productivity and create meaningful leverage.

“Our goal is to make AI accessible and useful for real people,” said Pogany. “You don’t need a technical background to benefit from these tools. With the right guidance, anyone can begin using AI to improve how they work and create.”

--- Bringing Together the Leading Voices in AI and Human Potential ---

The AI Advantage Summit, hosted by Tony Robbins, Dean Graziosi and Igor Pogany, will feature a diverse lineup of innovators, educators and entrepreneurs exploring how artificial intelligence is transforming both business and daily life.

Additional speakers include Zack Kass, former Head of Go-To-Market at OpenAI, Arthur Brooks, Harvard professor and bestselling author, Rachel Woods, AI strategist and founder, Dallas Clouch, known as The AI Surfer, as well as Lior Weinstein, Renee Marino and Molly Mahoney.

Each speaker will share insights into how artificial intelligence is already being used to improve productivity, enhance creativity and unlock new opportunities.

“AI is not just a technological shift, it’s a human shift,” said Dean Graziosi, multiple New York Times bestselling author and entrepreneur. “People don’t just need new tools. They need new understanding. The AI Advantage Summit was created to give people clarity and confidence so they can use AI to enhance what they already do best.”

According to Igor Pogany, the key to navigating this moment is education.

“Technology always moves faster than people’s confidence,” Pogany said. “Events like the AI Advantage Summit exist to bridge that gap so individuals and entrepreneurs can turn AI into a powerful advantage instead of something they fear.”

--- Turning Curiosity About AI Into Practical Skills ---

[The AI Advantage Summit was designed to help entrepreneurs](#) and professionals move from curiosity about artificial intelligence to real-world understanding.

Across three focused days, attendees will discover:
