

Spetsnaz Security Launches World's First PERFECT 100/100 PageSpeed Security Site

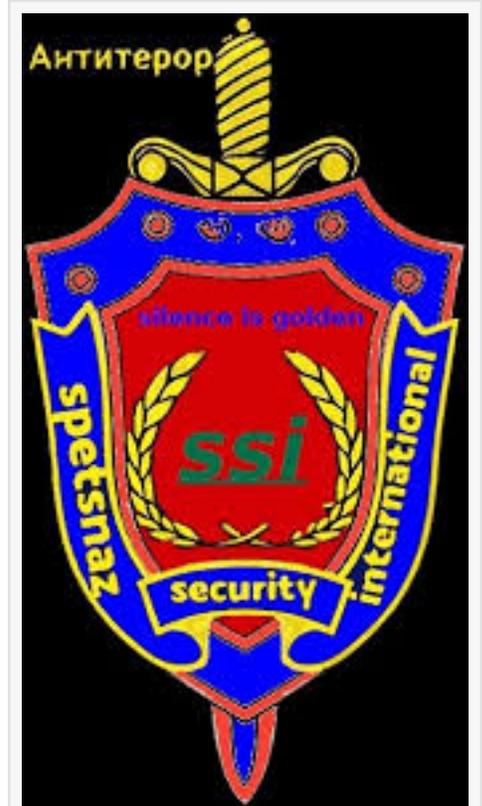

London firm achieves PERFECT Google PageSpeed Insights across 600+ HTML pages

LONDON, MAYFAIR, UNITED KINGDOM, March 13, 2026 /EINPresswire.com/ -- Spetsnaz Security International Limited (UK Companies House #10524908), London's elite close protection firm, announces the global launch of the world's first security industry website achieving PERFECT 100/100 Google PageSpeed Insights scores across ALL FOUR categories on 600+ static HTML pages.

Tested on emulated Moto G Power (slow 4G), the new platform delivers Core Web Vitals performance unmatched in the security sector:

- First Contentful Paint: 1.1s (97th percentile)
- Largest Contentful Paint: 1.7s (94th percentile)
- Total Blocking Time: 0ms (100th percentile)
- Cumulative Layout Shift: 0 (PERFECT stability)

"This represents enterprise-grade digital infrastructure matching our 10+ year zero-incident operational record," said Fidel Matola, MD & Founder. "High-net-worth clients demand performance perfection in both physical security and digital presence."

GOVERNMENT-GRADE SECURITY + PERFORMANCE PERFECTION

Beyond performance optimization, the 586+ page platform incorporates security measures exceeding industry

standards:

- DNSSEC domain validation
- DMARC p=reject policy (inbound-only domain protection)

- A+ security headers (securityheaders.com verified)
- Custom /security.txt coordinated vulnerability disclosure
- Bespoke cookie consent banner (zero CLS impact, full GDPR compliance)

The static HTML architecture eliminates server-side vulnerabilities while maintaining 36 validated schema.org structured data items including Organization markup (Companies House #10524908 verified), LocalBusiness data for 150 Piccadilly London W1J 9BR, and 31x 5-star customer reviews.

ENTERPRISE TECHNICAL ACHIEVEMENT

Unlike single-page performance demos common in web development marketing, Spetsnaz Security International Limited optimized every individual page through Lighthouse 13.0.1 testing:

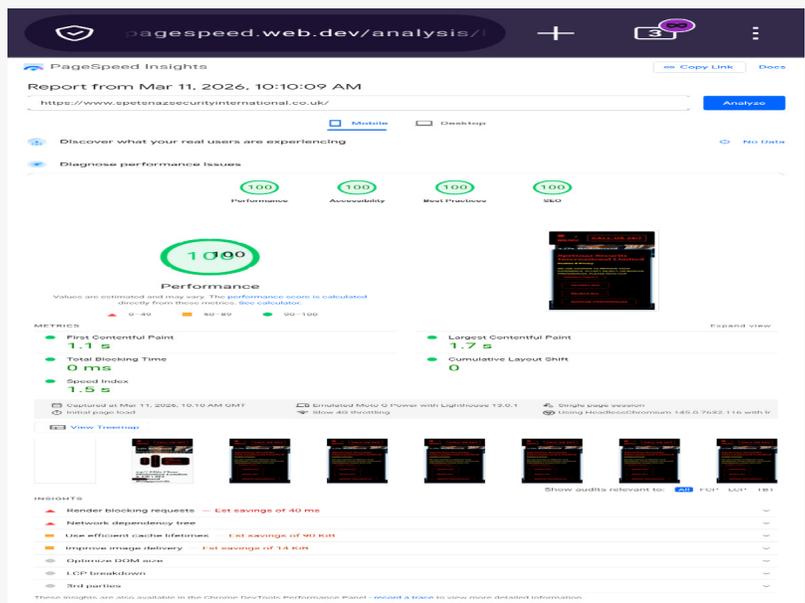

- Mobile: 100/100 (Moto G Power, slow 4G emulation)
- Desktop: 100/100 (instantaneous load times)
- Accessibility: 100
- Best Practices: 100
- SEO: 100
