

Healing the Forgotten: Amigos Internacionales Launches Major Children’s Medical & Surgical Mission in Napak, Uganda

Amigos Internacionales Announces Children's Medical & Surgical Camp in Napak, Uganda

WHITEHOUSE, TX, UNITED STATES, March 12, 2026 /EINPresswire.com/ -- In one of the most medically underserved regions of East Africa, a team of volunteer physicians, surgeons, nurses, and humanitarian leaders will soon gather to bring lifesaving care to thousands.

From April 11–18, 2026, [Amigos Internacionales](#) will lead a Children’s Medical and Surgical Camp alongside a full community medical clinic in Napak District, Uganda—a remote region where many families live days away from medical care.

For many children in Karamoja, a simple treatable condition can become life-threatening because care is too far away or too expensive. This mission is designed to change that.

The week-long initiative will provide:

- Pediatric surgical screenings and operations
- General medical care for children and families
- Maternal and women’s health services
- Dental and eye care
- Community health education
- Referral pathways for complex cases

All services are provided free of charge to the community.

A Proven Model of Compassion and Impact:

Amigos Internacionales has been quietly building one of the most efficient humanitarian medical

\$142,000 Unlocks \$10,116,150 in Medical Care
2025 AMIGOS MEDICAL MISSIONS

DONOR INVESTMENT \$142,000
MEDICAL VALUE DELIVERED \$10,116,150

71x Impact Multiplier
Every \$1 = \$71 in Aid Delivered

COMMUNITY MEDICAL CLINICS
Permanent Community Healthcare
Medical clinics provide ongoing healthcare services including:
✓ primary medical care
✓ maternal and child health services
✓ disease treatment
✓ surgical support for future missions

71x Impact Multiplier
Every \$1 = \$71 in Aid Delivered

Cataract Surgeries Dental Care \$900K Ortho/ENT \$107K
Cataract Surgeries Ortho/ENT \$10K Clinic Visits \$1K Wheelchairs \$51K

Amigos turns \$1 donated into \$71 medical service for the underserved

initiatives in East Africa.

Last year alone:

\$149,000 in donor contributions
Generated over \$10 million in medical services
Every \$1 donated produced \$71 in medical benefits

This extraordinary multiplier effect is possible because the organization mobilizes volunteer medical professionals, donated supplies, partner hospitals, and local health systems.

Surgeons turn bush classrooms into surgical suites

Previous medical missions across Uganda have reached thousands of vulnerable people. One recent outreach in northern Uganda served more than 1,500 patients in just three days, providing surgical consultations, dental care, cancer screenings, and eye treatment to communities that had little or no access to healthcare.

“

A ministry of healing does not happen from a distance,” Dr. Mulyamboga explains. “To bring health, the physician must be physically present. We go where people have been forgotten.”

Dr. Paul Mulyamboga

Expanding Across Africa

What began as a focused mission initiative has grown into a rapidly expanding humanitarian network.

Amigos and its medical partners have conducted medical

missions in:

Uganda
Burundi
Nigeria

And are preparing to expand programs into:

Malawi
The Democratic Republic of Congo

Each mission combines medical care, local leadership development, and long-term community support.

Leadership Behind the Mission

The medical effort is led by [Dr. Paul Mulyamboga](#), Medical Director for Amigos Internacionales and leader of Doctors on Mission International, a volunteer network of physicians and healthcare professionals committed to delivering lifesaving care to vulnerable communities.

“A ministry of healing does not happen from a distance,” Dr. Mulyamboga explains. “To bring health, the physician must be physically present. We go where people have been forgotten.”

Ugandan refugees pose for picture after sight is returned with cataract surgery

The broader initiative is coordinated by Michael Ryer, CEO of Amigos Internacionales, whose leadership continues to expand the organization’s global footprint.

Together they are mobilizing medical teams, churches, donors, and volunteers to bring sustainable healthcare solutions to some of the most difficult-to-reach places on earth.

Why Napak Matters

Napak lies in the Karamoja region of northeastern Uganda, an area where access to healthcare remains extremely limited and childhood malnutrition rates are among the highest in the country.

For many families:

A child’s hernia goes untreated

A curable infection becomes life-threatening

A simple surgical condition leads to lifelong disability

This mission seeks to intervene early—restoring health, dignity, and hope.

An Invitation to Be Part of the Story

For donors and supporters around the world, this mission offers something rare: a direct path to measurable impact.

Every gift helps:

Deliver surgical care to children
Provide medicine to remote communities
Mobilize volunteer medical professionals
Build sustainable healthcare partnerships

But more importantly, every gift helps restore hope where it has been lost.

As the team prepares to travel to Napak this April, supporters are invited to walk alongside them—bringing healing to children who would otherwise be left without care.
