

HAICook Brings AI-Powered Inspiration to Everyday Cooking

HAICook is an AI-driven recipe app that helps users discover recipes, generate personalized meals, plan weekly menus, and simplify grocery shopping.

WY, UNITED STATES, March 13, 2026 /EINPresswire.com/ -- In today's fast-paced modern lifestyle,

HAICook is designed to help people cook with more confidence and creativity, turning everyday meals into a smarter and more enjoyable experience with the support of AI.”

HAICook

deciding what to cook each day can often feel overwhelming. HAICook is an AI-powered cooking and recipe generation app designed to simplify this process and turn everyday cooking into a more enjoyable and inspiring experience.

Built around three core ideas—Helper, AI, and Cook—HAICook combines intelligent technology with practical culinary tools to help users approach every meal with greater confidence.

HAICook is designed for a wide range of users, including busy professionals, home cooks, families, and beginners with limited cooking experience. With its intuitive interface and thoughtfully designed features, the app lowers the barrier to cooking while encouraging creativity and exploration in the kitchen.

HAICook offers a variety of practical features that support users throughout the entire cooking journey—from discovering inspiration to preparing meals:

- AI Recipe Inspiration

Browse creative recipes generated by AI and added to the platform, discovering new cooking ideas and culinary inspiration.

- Cooksnap Sharing

Upload photos of completed dishes and explore how other users have recreated the same recipes, building a personal library of cooking memories.

- One-Tap Shopping List Generator

Quickly add ingredients from any recipe to a shopping list, helping users avoid missing items and making grocery shopping more efficient.

- Save Favorite Recipes

Easily save and organize favorite recipes for convenient access and repeat cooking.

- AI-Powered Personalized Recipe Generation

AI will generate unique recipes tailored to those inputs, allowing users to quickly start cooking with personalized results.

- Weekly Meal Planning

Weekly recipes curated by the HAIcook team to inspire everyday cooking.

- Personalized Dietary Preferences

Support for dietary preferences and allergy settings allows AI to filter and optimize recipe generation results, ensuring suggestions better match individual needs.

At the heart of HAIcook is its AI-powered personalized recipe generation technology. Users can choose ingredients they have on hand, cuisine styles, cooking preferences, or other general settings, and the AI will generate unique recipes tailored to those inputs. Each generated recipe uses credits, allowing users to maintain full control over their usage.

HAIcook is currently available on both iOS and Android platforms. Users can download the app from the [App Store](#) or [Google Play](#) and start exploring AI-powered cooking inspiration immediately.

To accommodate different usage habits, HAIcook offers flexible plans. The Basic Plan includes a set number of recipe views and AI generation credits while removing advertisements. The Advanced Plan unlocks additional AI generation credits, unlimited recipe browsing, weekly AI-recommended menus, and early access to upcoming features.

For users who prefer greater flexibility, HAIcook also provides one-time credit purchases, allowing users to buy recipe views or AI generation credits without committing to a subscription.

With HAIcook, cooking becomes more than just a daily task—it becomes a smarter, more creative, and more enjoyable part of everyday life. To learn more, visit the [HAIcook official website](#).
