With more than three decades of experience in the industry, Mr. Leduc has certainly proven himself as an expert in his field. As a dynamic, results-driven leader Paul Leduc is the President of Globe POS Systems, a leader in providing integrated point-of-sale solutions.

Globe POS Systems is a leading provider of point-of-sale solutions for the retail and hospitality industries, with over 20 years of experience supporting businesses in these sectors. As a trusted reseller, Globe POS Systems offers a range of advanced technologies, including L-POS and LBOSS from Logivision, Bullfrog software, and reliable hardware from HP and Toshiba. Additionally, the company provides integrated solutions from Datalogic, Geovision cameras, Electronic Shelf Labels, and many other industry-leading products, designed to meet the needs of both individual retail stores and large chains.

Paul's journey began in his teenage years working in retail. His experience in grocery retail, along with his role at Logivision working with POS technology, gave him valuable insights into the industry's needs. This background paved the way for his transition to the service-provider side, eventually leading him to acquire and grow Globe POS Systems. Since taking ownership, Paul has expanded the company from a small operation into a thriving business, strategically increasing the team and adapting to industry demands. Under Paul's leadership, Globe POS Systems has grown into a trusted provider of advanced technology solutions, specializing in POS systems and complementary products like phone systems, security systems, scales, and digital menu boards. The company's

integrated solutions enhance operational efficiency and minimize errors for customers. With Mr. Leduc's experience, Globe POS Systems is dedicated to staying ahead of the rapidly evolving technology landscape. The company recognizes that products like video surveillance, electronic shelf labels and POS systems are constantly updated, so they prioritize ongoing training for their team. While new technology often emerges shortly after training, Globe POS Systems ensures its staff is consistently equipped with the latest knowledge to provide clients with practical support and guidance. Clients can trust that the company will keep their systems running smoothly and help them stay ahead in the industry.

Before embarking on his career path, Paul earned a Bachelor of Business Administration (BBA) from the Université du Québec en Outaouais.

Throughout his illustrious career, Paul Leduc has received many awards and accolades and has been recognized for his accomplishments. Last year, he was selected as Top CEO of the Year in Retail by IAOTP. This year he will be considered to be featured in TIP (Top Industry Professionals) Magazine. He will be honored at IAOTP's annual [awards gala](#) at the iconic Plaza Hotel in New York for his selection as Top CEO of the Decade in Retail 2026.

Mr. Leduc is inspirational, influential, and a true visionary and thought leader. We cannot wait to see him and celebrate his accomplishments at this year's gala."
