Premium kitchen appliance brand Kuvings has released a new AI-generated video celebrating St. Patrick's Day.

WHEELING, IL, UNITED STATES, March 16, 2026 /EINPresswire.com/ -- Premium kitchen appliance brand [Kuvings](#) has released [a new AI-generated video celebrating St. Patrick's Day](#), inspired by the iconic Chicago tradition of dyeing the river green.

Drawing inspiration from the famous St. Patrick's Day celebration in Chicago, the video reimagines the tradition through imaginative AI-powered storytelling. The playful narrative blends festive visuals with the brand's focus on fresh juice and healthy living.

The video unfolds inside a massive ship where cheerful green elves operate Kuvings juicers to extract vibrant green juice. The freshly made juice is then poured into rivers and oceans across the globe, gradually turning the waters into symbolic "green juice" that reflects the lively spirit of the holiday.

The company has been actively expanding its AI-driven digital storytelling, releasing similar creative content for global events such as the International Day of Sign Languages and Christmas. These videos received strong engagement from audiences worldwide.
