

ANY.RUN Demonstrates New Detection and Investigation Capabilities at RootedCON 2026

DUBAI, DUBAI, UNITED ARAB EMIRATES, March 16, 2026 /EINPresswire.com/ -- [ANY.RUN](#), a leading provider of interactive malware analysis and threat intelligence solutions, participated in RootedCON 2026 in Madrid, where the team showcased new capabilities built for modern SOC environments, met with customers and partners, and connected with security professionals exploring stronger threat detection and investigation workflows.

RootedCON is one of Europe's largest cybersecurity conferences, bringing together thousands of security professionals each year to discuss emerging threats, new technologies, and approaches to cyber defense.

□□□□□□□□□□ □□□ □□□□□□ □□□ □□□□□□□□□□

During the conference, the ANY.RUN team demonstrated several capabilities aimed at improving visibility, speeding up investigations, and supporting more effective security operations. Highlights included:

- Automatic SSL decryption in the Interactive Sandbox to help security teams gain visibility into encrypted HTTPS traffic during malware and phishing investigations
- Stronger evidence for faster investigation decisions
- Faster investigation workflows supported by interactive malware analysis and threat intelligence

- Greater operational efficiency for SOC teams handling high volumes of security alerts

To learn more about ANY.RUN's participation at RootedCON 2026 and the capabilities showcased during the event, read the full recap on the [ANY.RUN blog](#).

The team also shared that upcoming releases will introduce new technologies designed to help organizations improve security efficiency, support faster response, and strengthen protection across modern enterprise environments.
