

Bail Bonds Now Warns Florida Consumers About Bail Bond Solicitation Scams

BailBondsNow.org issues urgent warning for Florida consumers about an increase in scams related to impersonating legitimate bail bond agents.

WEST PALM BEACH, FL, UNITED STATES, March 16, 2026 /EINPresswire.com/ -- BailBondsNow.org issues urgent warning for Florida consumers about an increase in scams targeting families with loved ones in custody by impersonating legitimate bail bond agents.

Scammers often use unsolicited phone calls, text messages, social media messages, or in person contact to pressure families into sending money or sharing personal information. The licensed agents at Bail Bonds Now emphasized that Florida law limits solicitation by bail bond agents, and legitimate bail agents in Florida will not solicit clients. The West Palm Beach headquartered [bail bond agency](#) said it maintains internal anti fraud policies designed to protect the public. Its website also includes a fraud warning advising consumers that neither the office nor its agents will ever solicit clients.

“These scams are designed to exploit fear and urgency,” said Bail Bonds Now management. Bail Bonds Now team stated scam activity can create real financial and legal harm for families already under stress: “Families often believe they are acting quickly to help a loved one, when in reality they are giving money or sensitive information to someone with no connection to the case. Never act on an unsolicited bail request. Verify first and contact our office directly through official channels.”

Consumers who provide financial information, identification details, or payment to an unverified caller may face identity theft, financial loss, and delays in arranging a legitimate bond. Bail Bonds Now urges consumers to hang up immediately if they receive an unsolicited call, text, or

BailBondsNow.org, Licensed Florida Bail Bonds

message about a bail bond. Families should verify the bail agency using the phone number listed on its official website or in state licensing records, not the number provided by the caller. Consumers should also ask for the agent's full name and license number, then contact the office directly to confirm the information.

The Bail Bonds Now team also advised consumers not to share bank account numbers, card details, Social Security numbers, or other sensitive personal information with an unsolicited caller. Any payment should be made only through secure, documented methods, with a written receipt and contract. Suspicious contacts should be documented, including the time, phone number, and substance of the communication, and then reported immediately.

Consumers who believe they have been targeted should report the matter to local law enforcement and the appropriate Florida state licensing or consumer protection agency. Anyone who receives a suspicious solicitation regarding Bail Bonds Now should contact the corporate office at (561) 500-9999 and ensure proper vetting.
