

CRCM™ Certification by Chartered Institute Builds Expertise in Predictive Maintenance and Reliability Strategy

Chartered Institute of Professional Certifications Launches the Certified Reliability-Centered Maintenance Leader (CRCM™) Program

SINGAPORE, SINGAPORE, SINGAPORE, April 13, 2026 /EINPresswire.com/ -- The [Chartered Institute of Professional Certifications](https://www.charteredcertifications.com)

“

Reliability-centered maintenance plays an important role in improving operational performance and reducing maintenance costs.”

Bok Yan Lo

(www.charteredcertifications.com), a global provider of executive certification programs, has announced the launch of the Certified Reliability-Centered Maintenance Leader (CRCM™) program. The program is developed with input from reliability engineering professionals and maintenance practitioners to help organizations strengthen asset reliability and maintenance performance.

The CRCM™ curriculum focuses on core reliability and maintenance management topics including reliability engineering fundamentals, asset criticality analysis, failure modes and effects analysis (FMEA), root cause failure analysis, predictive maintenance technologies, and reliability-centered maintenance (RCM) decision frameworks. Participants will learn how to design structured maintenance strategies, reduce equipment downtime, and improve asset lifecycle performance.

The program also covers practical implementation topics such as risk-based maintenance planning, condition monitoring techniques, CMMS optimization, and reliability performance measurement. Participants will gain tools and frameworks to support the development and management of reliability-centered maintenance programs within their organizations.

“Reliability-centered maintenance plays an important role in improving operational performance and reducing maintenance costs,” said Bok Yan Lo, Managing Director of the Chartered Institute of Professional Certifications. “The CRCM™ program will equip professionals with practical tools and applied strategies to lead structured, reliability-centered maintenance initiatives that strengthen asset performance, improve operational resilience, and support long-term business

success.”

The CRCM™ program, fully endorsed by the Chartered Institute of Professional Certifications, is available in both [on-demand](#) online format and [live](#) instructor-led sessions, allowing professionals to complete the program in a flexible learning format.

Upon successful completion of the program and passing the certification examination, participants will be awarded the Certified Reliability-Centered Maintenance Leader (CRCM™) designation. The certification is awarded by the Chartered Institute of Professional Certifications and is independently accredited by CPD, maintaining the standards of the most rigorous principles of Continuing Professional Development.

For more information about the CRCM™ program and to register, please visit the following website:

To register for the on-demand program, participants can go directly to:
