

# Xypex 2025 International Best Project Awards – Winners Announced

*Xypex announces 2025 award winners recognizing excellence in concrete durability, engineering performance, and crystalline waterproofing technology.*

VANCOUVER, BC, CANADA, March 19, 2026 /EINPresswire.com/ -- [Xypex](https://www.xypex.com) announces the winners of the 2025 International Best Project Awards, recognizing construction projects that demonstrate excellence in concrete durability, engineering performance, and the use of crystalline waterproofing technology.

This year's program received more than 80 project submissions from over 20 countries across five continents, reflecting the global reach of Xypex technology and the strength of its international network of distributors, engineers, contractors, and partners.

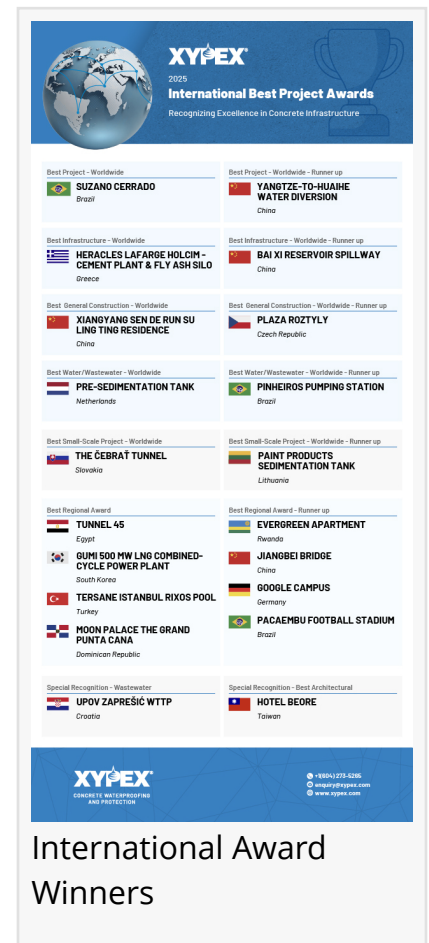

The submissions represented a broad range of projects across infrastructure, general construction, water and wastewater facilities, industrial structures, and small-scale applications. Projects were evaluated based on engineering complexity, construction challenges, durability requirements, and the integration of crystalline waterproofing within the concrete structure.

According to Xypex, the selected projects demonstrate technical excellence, quality of execution, and the effective application of crystalline waterproofing technology in demanding environments. Across these projects, Xypex was specified to provide long-term waterproofing and chemical protection as an integral part of the concrete matrix.

Further details on the award-winning projects can be viewed on the Xypex Project Awards landing page, along with the 2025 International Best Project Awards Booklet:

About the Xypex International Best Project Awards – Excellence in Concrete Waterproofing

The image shows a booklet titled "XYPEX 2025 International Best Project Awards" with the tagline "Recognizing Excellence in Concrete Infrastructure". It lists 20 award-winning projects in a grid format, categorized by award type and location. The projects include:

- Best Project - Worldwide:** SUZANO CERRADO (Brazil), YANGTZE-TO-HUAHE WATER DIVERSION (China)
- Best Infrastructure - Worldwide:** HERACLES LAFARGE HOLCIM - CEMENT PLANT & FLY ASH SILO (Greece), BAI XI RESERVOIR SPILLWAY (China)
- Best General Construction - Worldwide:** XIANGYANG SEN DE RUN SU LING TING RESIDENCE (China), PLAZA ROZTYLY (Czech Republic)
- Best Water/Wastewater - Worldwide:** PRE-SEDIMENTATION TANK (Netherlands), PINHEIROS PUMPING STATION (Brazil)
- Best Small-Scale Project - Worldwide:** THE ČEBRAT TUNNEL (Slovenia), PAINT PRODUCTS SEDIMENTATION TANK (Lithuania)
- Best Regional Award:** TUNNEL 45 (Egypt), EVERGREEN APARTMENT (Rwanda), BUMI 500 MW LNG COMBINED-CYCLE POWER PLANT (South Korea), JIANGBEI BRIDGE (China), TERSANE ISTANBUL RIXOS POOL (Turkey), GOOGLE CAMPUS (Germany), MOON PALACE THE GRAND PUNTA CANA (Dominican Republic), PACAEMBU FOOTBALL STADIUM (Brazil)
- Special Recognition - Wastewater:** UPOV ZAPREŠIĆ WTP (Croatia)
- Special Recognition - Best Architectural:** HOTEL BEORE (Taiwan)

The Xypex International Best Project Awards recognize the efforts of Xypex's global network by showcasing projects that demonstrate excellence in challenging construction environments using crystalline waterproofing technology. Xypex distributors deliver consistent technical service and project performance to the global construction industry.

### About Xypex Chemical Corporation

Xypex Chemical Corporation is a global leader in the waterproofing, protection, and repair of concrete structures, with over 55 years of experience and a track record spanning more than 110 countries. Xypex Crystalline Technology is designed to become an integral, permanent part of the concrete matrix, providing long-term resistance to water and aggressive chemicals.
