

IDI's Background Screening Support Solutions Now Available on TazWorks Platform

Background screeners and CRAs now have streamlined access to IDI's powerful identity intelligence within the TazWorks ecosystem.

BOCA RATON, FL, UNITED STATES, March 25, 2026 /EINPresswire.com/ -- Interactive Data, LLC ("IDI"), a red violet company (NASDAQ: RDVT), has completed its integration with TazWorks, the creators of the TazCloud™ background screening platform and part of MeridianLink.

With the integration now live, background screening organizations and consumer reporting agencies (CRAs) can access IDI's best-in-class identity intelligence solutions within the TazWorks platform via Trade House.

This seamless connection allows users to incorporate IDI insights directly into their existing screening workflows.

Powered by a comprehensive repository of proprietary, public record, and publicly available data covering nearly 100% of the U.S. adult population, IDI delivers critical insights to help verify identities, uncover alias histories, and enhance screening precision.

Solutions available through the integration include:

- **idiTRACE™**: instant verification of possible names, aliases, SSN, date of birth, and current and historical addresses
- **idiCRIM™**: extensive database of possible court, criminal, arrest, warrant, watch list, fugitive, and sex offender records
- **idiALIAS™**: combines address trace and national criminal database searches to deliver potential criminal results for every alias associated with your subject

The completed integration enables background screeners and CRAs to streamline operations, minimize manual reviews, improve match rates, and make more confident, data-driven decisions while maintaining efficiency and supporting profitability.
