Prime 1 Studio unveiled MOTOKO KUSANAGI figure from "GHOST IN THE SHELL STAND ALONE COMPLEX." Preorders began Apr 10, 2026 (JST), with release for Mar 2027.

ASAKUSA, TAITO-KU, TOKYO, JAPAN, April 10, 2026 /EINPresswire.com/ -- Motoko Kusanagi from "Ghost in the Shell: Stand Alone Complex" joins the Life Scale Masterline as a full-scale figure.

The figure recreates Motoko Kusanagi as developed by director Kenji Kamiyama and shaped through the performances of Atsuko Tanaka and others, realized as the world's first full-scale, life-size figure. It follows her official height of 168 cm, with detailed sculpting and paintwork applied throughout.

The head sculpt features crimson camera eyes with visible internal markings, short hair that falls diagonally forward, and a firm facial expression. Her supple proportions are reproduced with attention to detail, and the Seburo C-26A in her right hand is finished with precise mechanical detailing.
