

# Cruise the Great Lakes Forecasts Record Growth in 2026

*\$300 million economic impact expected from nearly 175,000 passenger visits*

ERIE, PA, UNITED STATES, March 25, 2026 /EINPresswire.com/ -- [Cruise the Great Lakes](#), the region's cruise marketing program, kicked off the 2026 regional cruising season by sharing its forecast at a press briefing in Erie, Pennsylvania, following the organization's annual meeting. The 2026 season continues the long-term growth of [Great Lakes](#) cruising, delivering more passengers and port visits, and a record-breaking \$300 million (US) economic impact across large and small regional destinations.

Cruise the Great Lakes tourism director Sally Davis Berry shares the 2026 cruise ship forecast in Erie on March 25

## Economic impact

The economic impact of cruising on the Great Lakes is expected to exceed \$300 million (US) in 2026, a 25% increase from 2025. More passengers, more port visits, higher shoreside spending, and a rising price premium for Great Lakes cruises are critical drivers of this growth. The ongoing expansion of Great Lakes cruising continues to bring significant economic benefits to both large and small port communities throughout the region.

## Cruise Lines and Ships

A new cruise line will enter the Great Lakes market in 2026--American Cruise Lines will bring ships to U.S. ports in the region. The itinerary highlights the growing variety of travel options.

In total, seven cruise lines are scheduled to operate on the Great Lakes in 2026, including:

1. Pearl Seas
2. Ponant
3. St. Lawrence Cruise Lines
4. Victory

5. Viking
6. Hapag-Lloyd
7. American Cruise Lines

These lines will operate 10 ships cruising the Great Lakes and St. Lawrence River in 2026:

1. Pearl Mist (Pearl Seas)
2. Canadian Empress (St. Lawrence Cruise Lines)
3. Octantis (Viking)
4. Polaris (Viking)
5. Le Bellot (Ponant)
6. Le Champlain (Ponant)
7. Hanseatic Inspiration (Hapag-Lloyd)
8. Victory 1 (Victory)
9. Victory 2 (Victory)
10. American Patriot (American)

#### Passenger visits

In 2026, Great Lakes cruises are projected to welcome over 23,000 individual passengers, a 5% increase from 2025. More than 800 port visits are planned, which is nearly 15% higher than last year. And the total number of cruise passenger visits across the region is estimated at nearly 175,000, up nearly 15% from 2025.

“As we look to 2026, we’re excited to see continued growth in the Great Lakes cruise sector,” said Sally Davis Berry, Tourism Director of Cruise the Great Lakes. “We forecast this upcoming season to be even stronger than 2025, both in terms of passenger numbers, destinations visited, and economic impact, which underscores the appeal of cruising in the Great Lakes.”
