

Aiarty Background Remover and Video Enhancer Upgraded with Enhanced RAW Support and Stable Video Rendering

Aiarty's Image Matting V2.7 and Video Enhancer V3.6 enhance RAW support, AI background removal, and video rendering for faster, more reliable workflows.

CHENGDU, SICHUAN, CHINA, March 30, 2026 /EINPresswire.com/ -- Aiarty, a leading provider of AI-powered creative solutions, today announced the latest upgrades for [Aiarty Image Matting V2.7](#) and [Aiarty Video Enhancer V3.6](#). These new releases focus on professional AI

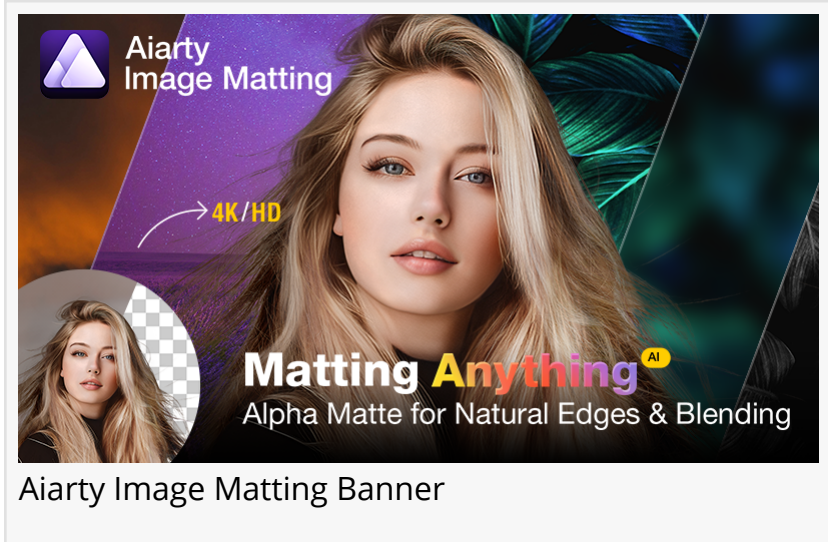

image and video enhancement, delivering better RAW photo compatibility, improved AI background removal accuracy, and stable AI video rendering for long-duration projects. These updates support photographers, videographers, and digital creators, enhancing AI video enhancement, AI image matting, and batch RAW photo processing for more efficient workflows.

In conjunction with these new releases, Aiarty is launching a limited-time Easter promotion, offering up to 49% off lifetime plans for its AI image and video tools:

Aiarty Image Matting V2.7: Optimized RAW Background Removal for Photos from Professional Cameras

Aiarty Image Matting is an [AI background remover](#) that enables photographers to quickly and precisely remove image backgrounds while preserving fine details and textures. Version V2.7 introduces optimized RAW parsing, enhancing compatibility with major RAW formats. It significantly improves color reproduction for Canon CR3 files, widely used by photographers with Canon EOS R series and EOS 5D Mark IV cameras, and refines display logic for RW2 files from popular Panasonic Lumix models like the GH5, S5, and G9, preserving details and tones more faithfully.

These improvements make AI background removal and batch RAW photo processing faster, more precise, and more reliable, helping professional photographers achieve high-quality results with minimal manual adjustments.

Additional fixes in V2.7 include :

- * Windows NVIDIA GPU compatibility: Resolves TensorRT inference engine issues after driver updates, ensuring stable AI-powered image processing.
- * TIFF preview bug fix: Eliminates low-quality thumbnails and improves efficiency for batch RAW workflows.

These updates make Aiarty Image Matting V2.7 a reliable AI background remover for professional photographers working with RAW images.

Aiarty Video Enhancer V3.6: Stable AI Video Rendering for Professional Creators

Aiarty Video Enhancer is a leading AI video enhancement software, trusted for high-resolution enhancement, low-light denoising, deblurring, and restoring flawed videos. The new V3.6 version focuses on performance optimization and rendering stability:

- * Improved resource allocation for long-duration AI video rendering tasks, ensuring smooth processing without slowdowns or crashes.
- * Windows NVIDIA GPU support, keeping TensorRT inference engine stable after driver updates.
- * Mac version fixes for rare model-loading crashes, enhancing overall user experience.

These upgrades make Aiarty Video Enhancer V3.6 the preferred choice for creators seeking reliable AI video enhancement, batch video processing, and stable AI video rendering for professional projects.
