

Cedo Acquires Polimero S.r.l.

ROVIGO, ITALY, March 30, 2026

/EINPresswire.com/ -- [Cedo](#), a leading European producer and recycler of flexible plastic films, has acquired

[Polimero](#) S.r.l., an Italian specialist in polyethylene recycling.

Based in Rovigo, Italy, Polimero brings nearly 40 years of experience in transforming flexible plastic waste into high-quality recycled LDPE granulates. The company produces around 9,000 tonnes of material annually and supplies a wide range of industrial applications.

The acquisition strengthens Cedo's position as a vertically integrated circularity platform for flexible plastic films. It expands the company's operational footprint into Southern Europe, enhances access to recycled material streams, and supports greater flexibility in supplying consistent, high-quality recyclates.

This move builds on Cedo's recent acquisitions and represents another step in executing the company's long-term growth strategy.

“

This marks another key milestone in executing our growth strategy and reinforces our commitment to advancing circular solutions in our industry.”

Thierry Navarre, CEO

Cedo will work closely with Polimero's team to ensure a smooth integration.

About Cedo

Cedo is a leading European manufacturer of private label household products and a key player in the recycling and production of flexible plastic films. The company operates an integrated model across the value chain — from collecting and recycling plastic waste to manufacturing

finished products — serving major retailers and industrial customers across Europe and beyond.

Cedo's strategy, “Grow with Purpose,” focuses on advancing circular solutions, increasing the use of recycled materials, and delivering reliable, high-quality products at scale.
