

# A Lifelong Kitchen Vision, Completed in Batavia, IL

---

WEST CHICAGO, IL, UNITED STATES, March 31, 2026 /EINPresswire.com/ -- A 75-year-old Batavia homeowner spent decades imagining a specific kitchen finish. In early 2026, Kitchen Cabinet Guys, a West Chicago-based [cabinet refacing](#) company, completed the project in under a week.

The homeowner searched for a contractor who could preserve his existing kitchen layout. His cabinet doors were still structurally sound, and he had no interest in a full replacement. Following an in-home consultation with Kitchen Cabinet Guys, he selected a wood structure laminate finish from a catalog of over 200 color and style options sourced through OMNOVA materials.

With cabinet refacing, door and drawer fronts are replaced and a new 3D laminate surface is applied over the existing cabinet boxes using a vacuum press. The original cabinet structure remains in place. The approach is common in older homes where the underlying framework is intact but the surface finish has aged.

The project was completed within 3 to 5 working days. Following completion, the client left a five-star review on Google describing his experience with the outcome. Kitchen Cabinet Guys also handles [thermofoil door repair](#) and cabinet door replacement for homeowners across the Chicagoland area.

## About Kitchen Cabinet Guys

Kitchen Cabinet Guys is a [cabinet refacing company in West Chicago](#), Illinois, serving the Chicagoland area. The company specializes in cabinet refacing on existing doors, in-house CNC door manufacturing, thermofoil repair, and decorative wall panels. Kitchen Cabinet Guys is the only U.S. company performing cabinet refacing directly on existing doors rather than replacing them, and operates in partnership with OMNOVA for premium 3D laminate materials.
