NEW YORK CITY, NY, UNITED STATES, April 4, 2026 /EINPresswire.com/ -- The Kaga Institute of Medicine & Aesthetics (TKI) is proud to announce that Dr. Mira Kaga, MD, served as a featured panelist at the Sofwave + Pure Impact PEAK Advantage Partnership Summit, held at the Hilton Midtown in New York City. The invitation-only event brought together some of the most influential voices in aesthetic medicine for a full day of clinical education, live demonstrations, and strategic business development.

Dr. Kaga joined an elite roster of national aesthetic leaders — including Jessica Weiser, MD, Johnny Franco, MD, Amy Lewis, MD, Rishi Chopra, MD, Brian Hibler, MD, Kavita Mariwalla, MD, and Deb Sullivan, PA-C — on the Summit's Real-World Panel, moderated by Johnny Franco, MD. The panel focused on advanced energy-based combination therapies, practice differentiation strategies, and real-world outcomes from top-performing aesthetic practices across the country.

The Summit's agenda featured clinical presentations on regenerative aesthetics and the Sofwave + Pure Impact platform, deep-dive protocol sessions, live device demonstrations, and breakout discussions on GLP-1 patient marketing, AI-driven patient conversion, and social media strategy. Dr. Kaga's participation in the panel highlighted TKI's position at the forefront of energy-based innovation and combination therapy in modern aesthetic medicine.

"Events like this are where the aesthetic community pushes itself forward," said Dr. Mira Kaga. "Being in a room with clinicians who are equally committed to outcomes and education — and having those real, unfiltered conversations about what's working — is exactly the environment TKI was built on."

The PEAK Advantage Partnership Summit was produced by Sofwave and Pure Impact, bringing together medspa owners, dermatologists, plastic surgeons, and aesthetic practice leaders from across the United States for one of the year's most comprehensive clinical and business education events in the field.
