

E2open Named a Leader in Gartner® Magic Quadrant™ for Transportation Management Systems for Fourth Consecutive Year

E2open enables companies to improve visibility, optimize transportation decisions, and respond more effectively to changing market conditions.

DALLAS, TX, UNITED STATES, April 1, 2026 /EINPresswire.com/ -- [E2open](#), part of the [WiseTech Global](#) Group (WiseTech) – a leading developer and

As supply chains face ongoing disruption and evolving logistics requirements, companies need solutions that combine deep industry expertise with broad capabilities and innovation.”

Pawan Joshi, Chief Strategy Officer at e2open

provider of innovative software solutions for the logistics, global trade and supply chain industries worldwide, today announced that it has been positioned by Gartner as a Leader for the fourth consecutive year in the 2026 Magic Quadrant for Transportation Management Systems (TMS)*. The evaluation was based on the company's overall Completeness of Vision and Ability to Execute. Magic Quadrant research “gives enterprise technology shoppers an unbiased assessment of how well competing providers are performing against Gartner market view and is supplemented by validated user reviews.”

According to Gartner, “Transportation management systems help supply chain leaders optimize transport cost and service and manage disruptions. As requirements shift and the TMS market grows, the vendor landscape has become more complex. Supply chain technology leaders should use this research to help evaluate the TMS market.” The report also states that “TMS solutions enable a shipper to have tighter control of their transportation operations, optimize costs, improve efficiencies, and have improved visibility into the movement of goods.”

“We believe being named a Leader for the fourth consecutive year in the Magic Quadrant for Transportation Management Systems reflects e2open’s continued focus on helping organizations manage increasingly complex global transportation networks,” said Pawan Joshi, Chief Strategy Officer at e2open. “As supply chains face ongoing disruption and evolving logistics requirements, companies need solutions that combine deep industry expertise with broad capabilities and innovation. Our transportation management solutions, combined with the power of the e2open

connected supply chain platform and WiseTech Global's extensive logistics ecosystem, enable companies to improve visibility, optimize transportation decisions, and respond more effectively to changing market conditions."

E2open's Transportation Management solution provides end-to-end transportation management capabilities alongside broader logistics functionality, including global logistics orchestration and logistics visibility, as well as integrations to the wider suite of products within e2open and WiseTech. The platform supports a wide range of industries and transportation scenarios, helping organizations manage both domestic and international shipping operations with greater efficiency and control. The solution connects organizations to one of the largest carrier network ecosystems, enabling real-time access to capacity, pricing, and performance data across transportation modes. With built-in AI-driven capabilities such as RateIQ, which analyzes rate signals to predict market benchmarks, e2open helps shippers make more informed planning and procurement decisions.

E2open's TMS is part of a connected logistics suite that allows organizations to coordinate people, processes, and systems across the global supply chain. The combination with WiseTech Global and shared vision to be the operating system for global trade and logistics including the supply chain, only strengthens the value for customers. Serving more than 22,000** logistics companies and other industry participants across 193 countries, and connecting more than 500,000 manufacturing, logistics, channel, and distribution partners, e2open together with WiseTech is enabling organizations to improve visibility, reduce costs, and build more resilient supply chains.
