

Bitmo Lab Reveals GearShift: A Novel Manual Shifter Phone Accessory

Join the Co-Creation Journey. Experience a new tactile dimension for your MagSafe ecosystem.

HONG KONG, CHINA, April 1, 2026 /EINPresswire.com/ -- As digital lives often feel a bit too automated, Bitmo Lab introduces [GearShift](#), a clever MagSafe-compatible accessory that brings a novel blend of tactile control and versatile functionality to your phone.

GearShift at a Glance:

6-Speed Manual Shifter: A real, short-throw gear mechanism with a crisp, tactile click.

Purely Mechanical: Zero electronics, batteries, or Bluetooth. Pure haptic feedback.

Multifunctional Design: A precision kickstand with 7 stable angles, a secure ergonomic grip, and a fidget-friendly device.

Automotive-Inspired Flair: Features a carbon fiber knob, chrome-polished rod, and subtle racing accents.

Thoughtful Adjustments: Features a telescopic rod for 2cm of extension, enabling a personalized hold.

Engineered for Intuitive Use

GearShift is built around its 6-speed gearbox. Each shift toggles between three core modes: Landscape for viewing, Portrait for browsing, and Grip for secure handling. The mechanical design provides stable support, a confident hold, and immediate physical feedback.

The Thought Behind It

"The concept was straightforward: we wanted to inject personality into a device that's often overlooked," says Zhong Tao, Product Manager at Bitmo Lab. "GearShift started with a simple question: could a phone grip offer the same tactile engagement as a manual transmission? So, we built a mechanical solution to find out."

Bitmo Lab GearShift: Manual shifter accessory for MagSafe ecosystem

Engage with GearShift: Co-Create Its Future

GearShift is currently in active concept development. Bitmo Lab invites media, creators, and tech enthusiasts to join the co-creation process and provide early feedback on this innovative concept.

Early-access samples of GearShift will be available for qualified partners for hands-on review and refinement feedback this Summer 2026. For access inquiries or to provide feedback, contact: official@bitmolab.com.

Availability

The GearShift accessory is planned for its official market launch in August 2026. To receive updates on the launch and be notified when GearShift drops, please visit the [official Bitmo Lab website](#) to subscribe for notifications.
