

Bisk Amplified and Prosper Announce Partnership to Launch ProsperU, a Groundbreaking Talent Development Platform

TAMPA, FL, UNITED STATES, April 1, 2026 /EINPresswire.com/ -- [Bisk Amplified](#) and [Prosper](#) today announced a strategic partnership to launch ProsperU, a first-of-its-kind talent development solution designed to strengthen people capabilities, improve retention, and build future-ready leaders across the foodservice and hospitality industry.

ProsperU combines Prosper's industry-backed Prosper Edge assessment with Bisk Amplified's digital learning and workforce-aligned education expertise to deliver a personalized, scalable development journey for employees at every level. The platform includes a science-based assessment, individualized insights report, a guided professional development workbook, and 20 short courses aligned to Prosper's 20 core capabilities — human skills such as communication, empathy, adaptability, judgment, and leadership that directly impact service quality, team performance, and internal mobility.

"ProsperU is about making people development practical, measurable, and deeply human," said David Jobe, Chief Executive Officer of Prosper. "For too long, frontline and emerging leaders have been underserved by traditional training models. ProsperU gives organizations a way to invest in their people at scale, building confidence, capability, and consistency in the moments that matter most."

Built specifically for employers, ProsperU integrates seamlessly alongside existing training systems without adding operational burden. Employees receive a clear, personalized growth pathway, while organizations gain actionable insights into capability development, engagement, and leadership potential, creating a stronger bench of internal talent and a more compelling employee value proposition.

"From the very beginning, Prosper was founded on the belief that people are the heart of this industry," said Hattie Hill, Co-Founder of Prosper. "ProsperU brings that belief to life. It turns self-

awareness into growth, and growth into opportunity, for individuals, teams, and the industry as a whole.”

Through the partnership, Bisk Amplified provides the technology platform, learning design, and workforce-aligned education pathways that extend ProsperU beyond development into long-term career mobility. Participants can explore curated certificates, microcredentials, and degree pathways aligned to their strengths and goals, helping organizations better leverage education benefits while supporting retention and advancement.

“ProsperU represents a new model for workforce development — one that starts with the individual and scales to business impact,” said Dr. Jennifer King, Senior Vice President of Workforce and Education at Bisk Amplified. “By combining Prosper’s deep industry insight with Bisk Amplified’s expertise in digital learning and workforce alignment, we’re giving employers a practical way to grow talent from within, reduce turnover, and build leadership pipelines that are both equitable and sustainable.”

ProsperU will initially launch with select Prosper partners in 2026, with plans to scale broadly across hospitality organizations seeking a people-first, data-informed approach to talent development. Organizations looking to transform their future can learn more here:
