This prestigious recognition is based on real feedback from FacilityOS employees, who are at the heart of what makes the company great. The rankings reflect the quality and consistency of the workplace

experience across all teams and roles, evaluated by the Great Place To Work® Trust Index™ employee survey. This study provides a comprehensive snapshot of organizational culture, drawing on feedback and sentiment of over 600,000 Canadian employees across 900+ organizations.

Employees are given end-to-end ownership of their work, from problem identification to execution, enabling faster decision-making and measurable impact across thousands of customer sites.

"We've built a culture where people are trusted to take ownership and solve meaningful problems, and that shows up in both our product and [how we work together every day.](#)"
