

Champion FleetCare & DPF Alternatives Launches New Website to Support Fleet Management in the Kansas City Metro Area

Champion FleetCare & DPF Alternatives launches a new website to help Kansas City fleet managers access specialized diesel repair and fleet maintenance services.

LENEXA, KS, UNITED STATES, April 1, 2026 /EINPresswire.com/ -- [Champion FleetCare & DPF Alternatives](#) has launched a new website designed to strengthen its professional digital presence and make it easier for fleet managers and commercial truck operators connect with the company's services.

The new site reflects Champion FleetCare & DPF Alternatives' focus on high-utilization fleet vehicles and supports its efforts to improve visibility for the specialized diesel and [fleet maintenance services Kansas City](#) commercial truck operators rely on.

Built around the needs of commercial fleet customers, the website gives visitors a clearer understanding of what sets Champion FleetCare & DPF Alternatives apart. The company is positioned as a specialized alternative to general commercial repair shops, with capabilities that include DPF cleaning, diesel emissions work, services maintenance, complex troubleshooting, and on-site and mobile truck repair service support.

The website also reinforces the company's customized fleet management approach, emphasizing that its role goes beyond individual repairs to helping customers manage the ongoing needs of their fleets more effectively.

A Message from the Owner

“Our new website is an important step in presenting our business in a way that matches the level of service and specialized support we provide,” said Chris Bennett, CEO of Champion FleetCare & DPF Alternatives. “We wanted a site that clearly communicates our capabilities and makes it easier for fleet managers to connect with a team focused on minimizing downtime and keeping vehicles working.”

About Champion FleetCare & DPF Alternatives

Our new website gives fleet managers a clearer way to understand our capabilities and connect with a team focused on keeping high-utilization vehicles working with less downtime”

Christopher Bennett

customers keep their operations moving.
