

Equiti Achieves HITRUST e1 Certification, Demonstrating Commitment to Cybersecurity and Information Protection

HITRUST Certification validates Equiti is meeting rigorous cybersecurity and data protection standards through independent assessment and assurance.

SUNRISE, FL, UNITED STATES, April 2, 2026 /EINPresswire.com/ -- [Equiti](#), a leading provider of medical interpretation and language access solutions for healthcare, today announced its [Martti](#) platform has earned certified status from HITRUST for cybersecurity and information protection.

The HITRUST Certification demonstrates that Equiti has met requirements defined by leading cybersecurity and regulatory frameworks, confirming that strong controls are in place to protect sensitive data and manage risk effectively.

Built on the HITRUST Assurance Program, this achievement reflects independent third-party testing, centralized quality assurance, and certification backed by HITRUST's Cyber Threat-Adaptive engine. These elements ensure continuous alignment with the latest threat intelligence and evolving standards across NIST, ISO, and OWASP.

"As cybersecurity expectations rise, our stakeholders expect credible, validated assurance," said Samantha Leanillo, Chief Information Security & Privacy Officer at Equiti. "Achieving HITRUST Certification reinforces our ongoing commitment to protecting data, managing risk, and maintaining the trust of those we serve."

Martti provides medically trained interpreters in more than 250 languages via video and phone, helping healthcare organizations deliver equitable care for patients with limited English proficiency.

Achieving HITRUST Certification reinforces our ongoing commitment to protecting data, managing risk, and maintaining the trust of those we serve.”

Samantha Leanillo, Chief Information Security & Privacy Officer

“Healthcare providers trust Martti to facilitate communication in the most critical moments of care,” said Maureen Huber, CEO of Equiti. “Achieving HITRUST certification reinforces our commitment to safeguarding patient information while enabling clinicians and patients to communicate clearly and confidently.”

By achieving HITRUST certification, Equiti demonstrates that its [security controls](#) and processes meet rigorous industry standards designed to protect sensitive healthcare data and strengthen trust with healthcare providers and patients alike.

“Earning HITRUST Certification demonstrates Equiti’s commitment to managing information risk and protecting sensitive data through a rigorous, proven assurance process,” said Gregory Webb, CEO of HITRUST. “This achievement reflects the organization’s proactive approach to cybersecurity and trust.”

About Equiti

Equiti, through its Martti platform, is the leading provider of medical interpretation and language access solutions for healthcare. Trusted by health systems, hospitals, and clinics nationwide, Martti combines unmatched interpreter quality with innovative technology to ensure equitable care for all patients. By embedding directly into clinical workflows, Martti helps providers meet compliance standards, improve patient outcomes, and advance health equity.
