

Accelebrate Solutions Launches EBAI-Powered Intelligent Passenger Counter, Transforming Shuttle Operations w/AI Precision

SCOTTSDALE, AZ, UNITED STATES, April 2, 2026 /EINPresswire.com/ --

Accelebrate Solutions today announced the immediate availability of its EBAI™ Intelligent Passenger Counter Service, a next-generation, AI-powered solution designed to redefine accuracy, compliance, and operational intelligence across the global shuttle industry.

Powered by the EBAI (Energy Blend AI) agentic framework and integrated with the [Xirgo Technologies](#) KP2 Dual Dash AI Camera, this solution delivers near real-time, verifiable passenger intelligence at a fraction of traditional system costs.

“

Shuttle operators are under increasing pressure to deliver accurate passenger counts, ensure regulatory compliance, and optimize route economics”

*Charles Maury, CEO of
Accelebrate Solutions*

Accelebrate’s EBAI Passenger Counter directly addresses these challenges by combining:

Purpose-built AI trained video frames to detect:

- o Passenger entry and exit events
- o Luggage and carry-on items (e.g., backpacks)
- o Children accompanied by guardians

High-Fidelity Image Capture via KP2 Camera enabling:

- o Accurate passenger detection

- o Timestamped event logging
- o Ground-truth validation capability

Agentic AI Processing (EBAI Core Engine) EBAI continuously:

- o Processes visual data in the cloud, no additional hardware required
- o Logs structured passenger events
- o Generates automated reports and alerts

“Shuttle operators are under increasing pressure to deliver accurate passenger counts, ensure regulatory compliance, and optimize route economics said Charles Maury, Chief Executive Officer of Accelebrate Solutions. Our partnership with Xirgo allows us to deliver a powerful, cost-efficient solution that combines AI precision with real-world operational scalability, this is not just a counting system—it’s a foundation for intelligent fleet operations.”

“This integration reflects Xirgo’s commitment to providing an open, scalable AI-enabled video ecosystem that allows partners like Accelebrate to deliver differentiated, data-driven solutions,” said Chris Wolfe, Chief Executive Officer of Xirgo Technologies. “By enabling direct access to intelligent video through our endpoint integration, we are accelerating new AI-powered use cases that create measurable value for transportation and transit fleets.”

About Xirgo Technologies:

Xirgo Technologies delivers industry leading video, vehicle and asset telematics hardware, software and support solutions, globally. Xirgo’s deep expertise in telematics, industrial quality connected devices, and cutting-edge artificial intelligence, empowers fleet operators with actionable intelligence that drive safety, efficiency, and operational intelligence across industries. Xirgo serves over 900 global channel partners that supply IoT solutions to many companies in the Fortune 100. Xirgo Technologies is based in Rolling Meadows, IL and has offices across the globe. For more information, contact pr@xirgo.com.

About Accelebrate Solutions:

Accelebrate Solutions is rapidly building and commercializing category-defining AI platforms across mobility and energy. EBAI is transcending commercial fleets, moving operations from cost centers to AI-powered assets that deliver a strategic and competitive advantage. Accelebrate's proprietary energy models optimize asset composition and maximize uptime, while improving revenue contribution margin across the enterprise. EBAI’s agentic micro-services work 24/7, monitoring, analyzing and reporting what you need, when you need it. Contact info@accelebratesolutions.com to learn more.
