

A Vintage-Inspired Mechanical Keyboard with Quiet Precision for Modern Workspaces

Perixx launches PERIBOARD-108M, a full-size mechanical keyboard with vintage design, quiet switches, and improved comfort—modernizing a fan-favorite classic.

DÜSSELDORF, DEUTSCHLAND (DEU), GERMANY, April 6, 2026

/EINPresswire.com/ -- [Perixx](#) unveils the PERIBOARD-108M, a full-size mechanical keyboard inspired by the widely appreciated PERIBOARD-106M—now reimagined with mechanical precision while preserving its distinctive vintage character.

Rooted in its unmistakable vintage-inspired design, the PERIBOARD-106M became a favorite for users drawn to its timeless aesthetic and nostalgic appeal. With the PERIBOARD-108M, Perixx preserves this iconic design language while introducing mechanical key switches that enhance responsiveness and durability—bringing a classic design into a more refined, modern typing experience.

At the center of this evolution are two newly introduced switch options—Quiet Tactile Brown and Quiet Linear Red. Designed for users who find traditional mechanical keyboards too loud, these switches offer a quieter alternative without compromising performance. Whether it's the gentle feedback of the Quiet Brown or the smooth keystroke of the Quiet Red, both provide a more comfortable and distraction-free typing experience—ideal for offices, shared spaces, and focused work environments.

A vintage-inspired full-size mechanical keyboard from Perixx, featuring a clean two-tone design, quiet switches, and a complete layout with number pad for everyday productivity.

The PERIBOARD-108M is built with comfort in mind. Its curved key design, featuring flatter tops and contoured edges, naturally aligns with the shape of your fingertips, enhancing typing accuracy and reducing fatigue. Combined with a long key travel structure, each keystroke delivers a responsive and satisfying feel. Removable keycaps further support easy cleaning and long-term usability.

As a full-size keyboard, the PERIBOARD-108M includes a complete layout with number pad, ensuring efficiency for both professional and everyday tasks.

“The PERIBOARD-106M has always represented a balance between comfort and simplicity” said Maxens Huang, VP of R&D Department of Perixx. “With the PERIBOARD-108M, we wanted to build on that foundation—keeping what users already love, while introducing quieter mechanical switches that better suit modern workspaces.”

The PERIBOARD-108M is now available on Amazon at \$39.99 each.
