

Pixel Art Horror Adventure Demo Launches on Steam

The 30-minute pixel-art experience reveals the beginning of a tragic story.

PRAGUE, CZECH REPUBLIC, April 3, 2026 /EINPresswire.com/ -- MOD42 Studio has released a free demo for Two Realms: Whispers from the Rift on Steam for PC, macOS and Linux. The 30-minute, hand-animated pixel art experience combines modern point-and-click adventure design with fast-paced horror and narrative drama.

Cover Art

Players will experience the beginning of the tragic story of Tobias and his younger brother, Juno, whose lives change forever after they discover a mysterious crystal. As Juno falls gravely ill, Tobias is forced onto a quest he never chose, while a dread mage closes in to tear the crystal from his hands – and with it, all hope.

If it maintains the level shown in the demo, Two Realms could become one of the narrative surprises.”
