

New Jersey Plastic Surgery Becomes One of the First in Region to Offer HALO® TRIBRID™: Next Gen Laser Skin Resurfacing

Dr. Barry DiBernardo introduces HALO® TRIBRID™ at New Jersey Plastic Surgery, combining three laser wavelengths in a single skin resurfacing session.

MONTCLAIR, NJ, UNITED STATES, April 3, 2026 /EINPresswire.com/ -- [New Jersey Plastic Surgery](#), a board-certified plastic surgery practice recognized globally for clinical innovation, today announced it is one of the first in the region to offer the [HALO® TRIBRID™](#) laser. The practice today officially opened access to this new technology at its Montclair location at 29 Park Street.

New Jersey Plastic Surgery Feature

The HALO® TRIBRID™ expands patient access to advanced skin resurfacing with Monday through Friday availability. This next-generation platform features three distinct laser wavelengths—adding a 10,600 nm CO2 wavelength to the traditional HALO hybrid fractional laser—allowing providers to treat deep structural skin issues and surface texture in a single appointment.

“

Aesthetic medicine is evolving from short-term correction toward regenerative, long-view approaches that support true skin fitness...”

Patients can schedule a consultation at (973) 509-2000 or via [newjerseyplasticsurgery.com](#).

“Aesthetic medicine is evolving from short-term correction

toward regenerative, long-view approaches that support true skin fitness,” said Dr. Barry DiBernardo, Medical Director of New Jersey Plastic Surgery. “By integrating three wavelengths, we are able to address the 'three problems' of skin aging—pigment, deep lines, and laxity—with the precision and safety that our research-led center is known for.”

The introduction of TRIBRID™ technology solidifies New Jersey Plastic Surgery's position as a

global leader in light and energy-based research. The practice currently houses over 42 advanced devices, utilizing these tools to create highly specific treatment sequences for patients in the Montclair and North Jersey area.

Key Facts:

Services: Advanced [laser skin resurfacing](#), treatment of deep wrinkles, pigment correction, and skin laxity.

Technology: HALO® TRIBRID™ utilizing 1470 nm, 2940 nm, and 10,600 nm wavelengths.

Location: 29 Park Street, Montclair, NJ 07042.

Appointments: (973) 509-2000,
