Bloomberg FX Forecast Accuracy Ranking - 13 Majors Q1 2026-04-01 13:00:00 GMT

By Bloomberg Automation (Bloomberg) -- Q1 FX forecasters are ranked based on three criteria: margin of error, timing (for identical forecasts, earlier ones received more credit), and directional accuracy (movements with the currency's overall direction). The ranking below, which was based on Bloomberg's foreign exchange forecasts (FXFC), was for forecasters who provided forecasts for Q1 in at least three of the four preceding quarters but no later than Feb. 28.

\* The best overall forecasters were identified by averaging the individual scores for each firm on all 13 currency pairs and all four quarters. Forecasters had to be ranked in at least eight of the 13 pairs to qualify for the overall ranking (47 firms qualified).
