Individuals who received notice regarding the [Krispy Kreme](#) data incident may be eligible to submit a claim under a proposed class action settlement before the filing deadline. According to the official settlement website, claim forms must be submitted by June 22, 2026.

A proposed class action settlement has been announced in In Re: Krispy Kreme Data Security Litigation, Case No. 3:25-cv-00434-MOC-SCR, pending in the United States District Court for the Western District of North Carolina. The settlement website states that the litigation concerns a data breach discovered on November 29, 2024. Krispy Kreme denies wrongdoing, and the settlement was reached to avoid the cost, burden, and uncertainty of continued litigation.

According to the settlement materials, the lawsuit alleges that Krispy Kreme did not adequately protect certain personal information from unauthorized access. The information at issue may have included combinations of personal data such as names, dates of birth, Social Security numbers, and financial account information. Individuals who received a notice that their information may have been affected may be members of the settlement class.

Under the proposed settlement, eligible class members may apply for reimbursement of up to \$3,500 for documented losses that are fairly traceable to the incident. The settlement website also provides for an alternative cash payment of approximately \$75 for eligible claimants who do
