

Expertise AI to Host OpenClaw Builders Showcase in Toronto on April 22

TORONTO, ONTARIO, CANADA, April 8, 2026 /EINPresswire.com/ -- FOR IMMEDIATE RELEASE

[Expertise AI](#) Launches [Builders Showcase](#): A Curated Community Event for OpenClaw and AI Agent Builders

Toronto-based AI company hosts first-of-its-kind event bringing together builders shipping with OpenClaw and advanced automation tools.

Expertise AI today announced the launch of Builders Showcase: OpenClaw & AI Agents, a curated community event designed to bring together builders actively working with OpenClaw, AI agents, and advanced automation tools. The event will take place on April 22, 2026, at New Stadium in Toronto.

Builders Showcase is a small gathering where high-signal builders demonstrate their work, engage in deep technical discussions, and connect with peers who are pushing the boundaries of what's possible with OpenClaw and AI-powered automation.

"We've been watching builders do incredible things with OpenClaw and AI agents," said, Hao Sheng, CEO of Expertise AI. "But most of this innovation happens in isolation. Builders are scattered across different teams and companies, solving similar problems independently without seeing what each other is creating. Builders Showcase exists to change that, to create a space where builders can learn from each other and see what's truly possible."

Event Format

The three-hour event will feature:

- Live Demos: Builders will showcase their work in 2-3 minute presentations
- Technical Discussions: Deep-dive conversations about challenges, solutions, and innovations
- Networking: Open time for builders to connect and exchange ideas
- Refreshments: Food and drinks provided throughout the event

Who Should Attend

Builders Showcase is designed for developers, engineers, and builders who are actively shipping with OpenClaw or AI agents and have a project or workflow to demonstrate. The event is curated to ensure quality conversations and a focused group of high-signal builders.

"We're being selective about who we invite because we want to create the right energy in the room," Hao Sheng explained. "This is for builders who are serious about their craft and genuinely interested in learning from peers."

Why Now

The OpenClaw and AI agent ecosystem is rapidly evolving, with builders creating innovative solutions across industries. However, there's limited opportunity for these builders to connect, share learnings, and collaborate. Builders Showcase addresses this gap by creating a dedicated space for the community to gather.

Event Details

Event: Builders Showcase: OpenClaw & AI Agents

Date: April 22, 2026

Time: 5:30 pm to 8:00 pm

Location: New Stadium, 83 Walnut Avenue, Toronto, ON
