“Laser season is short, and spring is one of the best times to address skin concerns safely and effectively,” said Claudia Harpe, co-founder of Harpe Laser and Wellness. “CoolPeel delivers meaningful skin renewal without the extended downtime traditionally associated with CO₂ lasers, which makes it an excellent option for patients who want visible results while staying active.”

Throughout CoolPeel® Week, the practice encourages new and returning patients to explore customized laser treatment plans addressing common concerns such as sun damage, uneven tone and texture, fine lines, enlarged pores, and acne scarring accumulated over time.

Known for its personalized care, highly trained providers, and cutting-edge technology, Harpe Laser and Wellness continues to raise the standard in non-invasive aesthetic medicine. The practice is proud to have been named Best Medical Spa in the Best of the Blue Ridge Awards (2023 & 2024) and to have earned Gold for Best Facial in the Best of Asheville Awards (2024 & 2025).
