

Hibino opens U.S. orders April 10 for NieR:Automata 1/1 scale replica set featuring 2B's sword 'Virtuous Contract'

TOKYO, JAPAN, April 10, 2026 /EINPresswire.com/ -- Complete Set includes the full-scale interactive sword, LED Light Ring Display Stand and custom soft case

Hibino Corporation today announced that U.S. orders will open on April 10, 2026, for the “Virtuous Contract” Complete Set (SMT-A1C-A), a 1/1 scale replica of 2B’s sword from NieR:Automata, developed under the supervision of Square Enix. NieR:Automata has sold more than 10 million units worldwide.

The Complete Set combines the full-scale interactive sword “Virtuous Contract” (SMT-A1) with the LED Light Ring Display Stand and a custom soft case designed specifically for the sword. These accessories have not previously been offered in the U.S. as part of a complete set configuration.

In Japan, the display stand and light ring sold out soon after launch, and the second shipment was also quickly claimed, highlighting the strong popularity of both products. In response to customer interest in a complete display configuration, Hibino is now introducing a bundled set for U.S. customers that includes the sword, stand and transport case in a single purchase.

Product details

1. “Virtuous Contract” (SMT-A1)

The SMT-A1 is a full-scale interactive replica that uses built-in sensors to trigger synchronized light and sound effects in response to movement, including the character voice of 2B.

□ Craftsmanship: Hand-woven grip and weathered finish designed to reflect the in-game

Hibino opens U.S. orders April 10 for NieR:Automata 1/1 scale replica set featuring 2B's sword “Virtuous Contract”

appearance

□Inspection: Each unit is engraved with a unique serial number, marking it a premium collector's item.

□Each U.S.-bound unit comes with its own dedicated Japan-issued Certificate of Inspection.

□Specifications: Approx. 54.7 inches in length; approx. 2.6 lbs.

2. LED Light Ring Display Stand

The included display stand is designed to recreate the floating presentation associated with the world of the game. The USB-C-powered light ring provides pulsing illumination, and the steel base features the YoRHa emblem.

3. Custom Soft Case

The custom soft case is made of durable 600D nylon with internal cushioning for storage and transport.

Availability

Orders open at 12:00 a.m. PDT on April 10, 2026, through the official HIBINO smart series website.

Order page:

<https://hibino-smartseries.com/products/smt-a1c-a>
