

Adesso Launches the AKB-140SB Keyboard

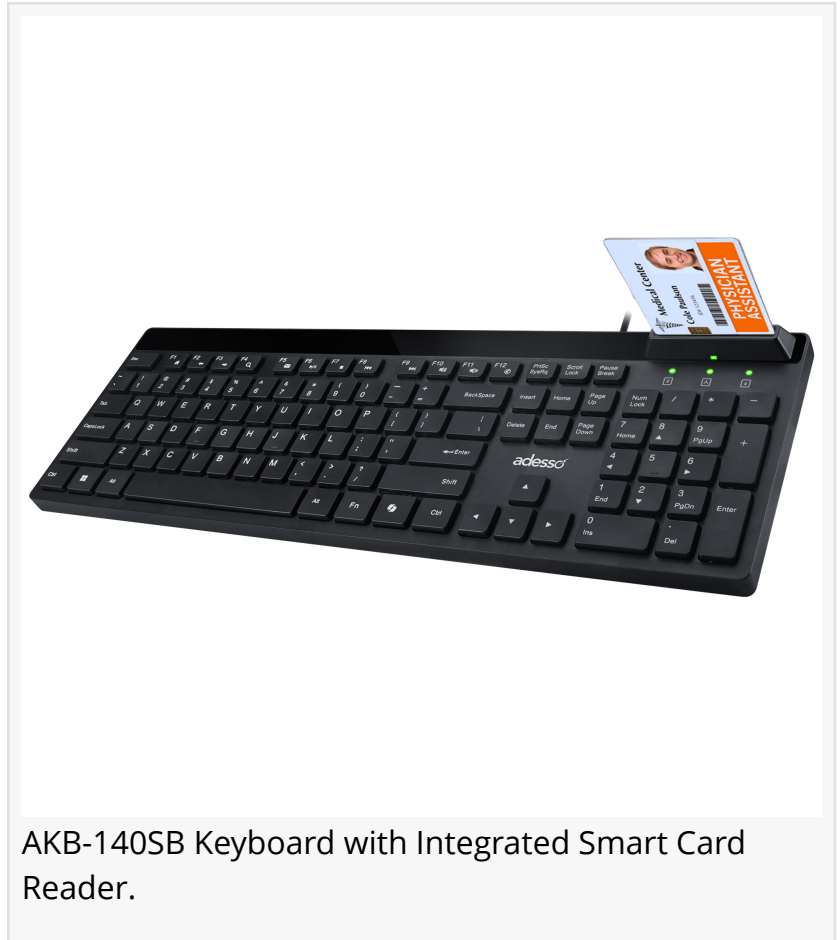

Adesso Launches the AKB-140SB Keyboard: Designed for Delivering Reliable Performance in Business Environments

WALNUT, CA, UNITED STATES, April 16, 2026 /EINPresswire.com/ -- Adesso, a leading manufacturer of computer peripherals and professional input devices, today announced the launch of its newest product, the AKB-140SB Keyboard with integrated Smart Card Reader, a low-profile keyboard designed to enhance productivity for modern business and enterprise environments.

Designed with productivity and efficiency in mind, the AKB-140SB features an integrated smart card reader tailored for government and public sector deployments, enabling secure, credential-based authentication. The reader supports CAC and PIV smart cards in alignment with FIPS 201 standards, helping agencies meet federal identity, credential and access management (ICAM) requirements. This integration streamlines secure workstation login and access to sensitive systems while supporting compliance with established government security protocols.*

Key Features of the AKB-140SB

- Consistent, Quiet Performance: Membrane key switches designed for long-term, low-noise operation
- Full-Size Layout with Numeric Keypad: Optimized for data entry and business applications
- Durable Construction: Built to withstand continuous, high-usage environments
- Integrated Smart Card Reader: Supports secure authentication and access control
- Easy Deployment: USB plug-and-play connectivity with no driver installation required
- Space-Efficient Design: Slim profile suitable for a wide range of workstation setups

AKB-140SB Keyboard with Integrated Smart Card Reader.

Compatible with Windows operating systems, the AKB-140SB integrates easily into existing IT infrastructures, making it a practical choice for bulk rollouts and standardized workstation configurations.

Pricing and Availability

The Adesso AKB-140SB MSRPs for \$49.99 and is available now through TD Synnex, Ingram Micro, D&H, Mall, Zones, Connection, CDW, Insight, SHI as well as other major retailers.

The image shows the Adesso AKB-140SB keyboard with a smart card reader. The keyboard is black and has the Adesso logo on the bottom right. The smart card reader is located on the right side of the keyboard. The background is a collage of various smart cards from different organizations, including a health card, a police ID, a fire department ID, and a university ID. The Adesso logo is in the top left corner, and the model number AKB-140SB is in the top right corner. Below the keyboard, there are five circular icons representing industry standards: EMV 4.0 (Level 1) CERTIFIED, PBOC 2.0 (Level 1) CERTIFIED, ISO7816 SUPPORTED, PC/SC 2.0 SUPPORTED, and Microsoft WHQL SUPPORTED. At the bottom, there is a black banner with the text "FAST, ACCURATE, CERTIFIED & UNIVERSALLY SUPPORTED" in white and green.
